R40A

Ideal for bigger jobs such as battery terminal cables or radiator repair.

Also Available

R25 (25W)

Ideal for electronic applications

40 Watt Soldering Iron Kit

features improved tips. Threaded tips are less cumbersome & offer improved heat exchange (as compared to the set screw type found in the "non-A"). Two (2) additional tips included.

Application of a graphite lubricant to tip thread before heating will facilitate tip changing.

Listed 694G

Includes:

- 120V, 60Hz pencil type iron
- Three (3) tips
 - fine
 - pointed
 - chisel
- 1/2 oz of lead-free rosin core solder
- Holder

Features:

- Heat deflecting shield
- Comfortable, 4.75" long grooved handle
- Eight & one half inch overall length (including tip)
- Eight foot cord

CAUTION

- Use carefully.
- Unplug after use.
- Always rest tip on holder.
- Keep away from combustible materials
- Not a toy. Store out of reach of children.
