Electronic Variable Shade Welding Helmet

**Features a solar
booster panel that
extends battery
life!**

Save your neck
..."GO ERGO"

Eliminates the need to "flip"
helmet after striking an arc.

- Features a solar booster panel that extends battery life
- Maximum viewing area (4.5" x 5.25")
- Adjusts from shade 8.5 to 12.5
- A dark to clear delay adjustment lets operator adjust for tack welding or a bright residual weld pool
- ON/OFF switch with auto-off feature
- A high transmission light state allows for hood-down set up in low ambient light applications
- Uses two, AAA batteries (included)
- Low Battery indicator
- Made in U.S.A.

WARNING

**Wear welding helmet and
protective clothing (user &
bystanders) while using a
torch or welding.**

Optional Magnifying Lens:

Mag Adapter	YA612MAGADP
1.5X	YA555MAG1.5
2.0X	YA555MAG2.0
