March 12, 2001

made in  
**U.S.A.**

4 lb. Cross Peen Hammer  
**BC4SG**

4 lb. Engineer's Hammer  
**BD4SG**

4 lb. Hand Drilling Hammer  
**HD4SG**

with comfortable, non-slip handle grips, fiber glass handles epoxy welded to hammer head

- Comfortable, non-slip handle grip.
- Fiberglass handle dampens vibration.
- Handle is epoxy welded to hammer head to withstand 8,000 pounds of pull.
- Fiberglass handle for strength & safe mode of failure. Wooden handle may break causing head to fly off. Fiberglass handle will show signs of failure before head flies off.
- Materials resist most shop chemicals.
- Handle will not dry rot, warp or splinter from exposure to the elements.
- BC4SG & BD4SG 14" overall length, handle length 12", & 1.5" dia striking face.
- HD4SG 10.75" overall length, 8.75" handle length & 1.5" dia striking face.

### WARNING

- Wear safety goggles (user and bystanders). Hammer head diameter should be no more than 3/8" larger than head of punch or chisel.
