

New ScanBay Installation Instructions via Self Service

Step 1

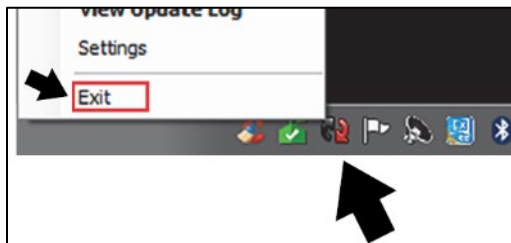

You will receive a Chrome notification of an available ScanBay update (Figure 1).

(Figure 1)

Close ALL Chrome applications, including:

- Chrome sales application and;
- Chrome Notifier
 - Chrome Notifier can be closed by right clicking the Chrome Notifier icon from the Windows taskbar, and selecting Exit (Figure 2).

(Figure 2)

Step 2

Open Self Service Client on your Windows® desktop (Figure 3).

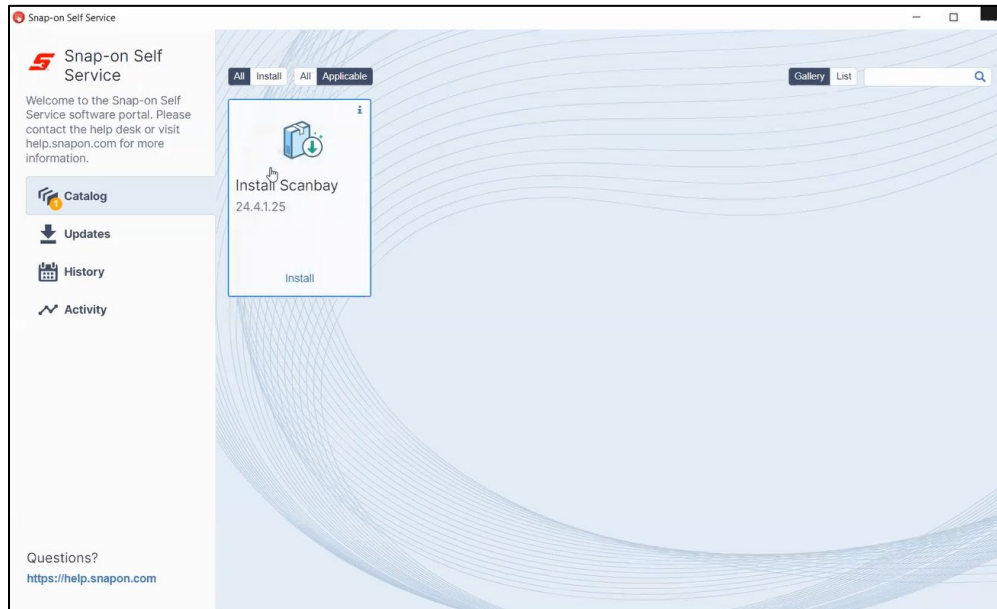

(Figure 3)

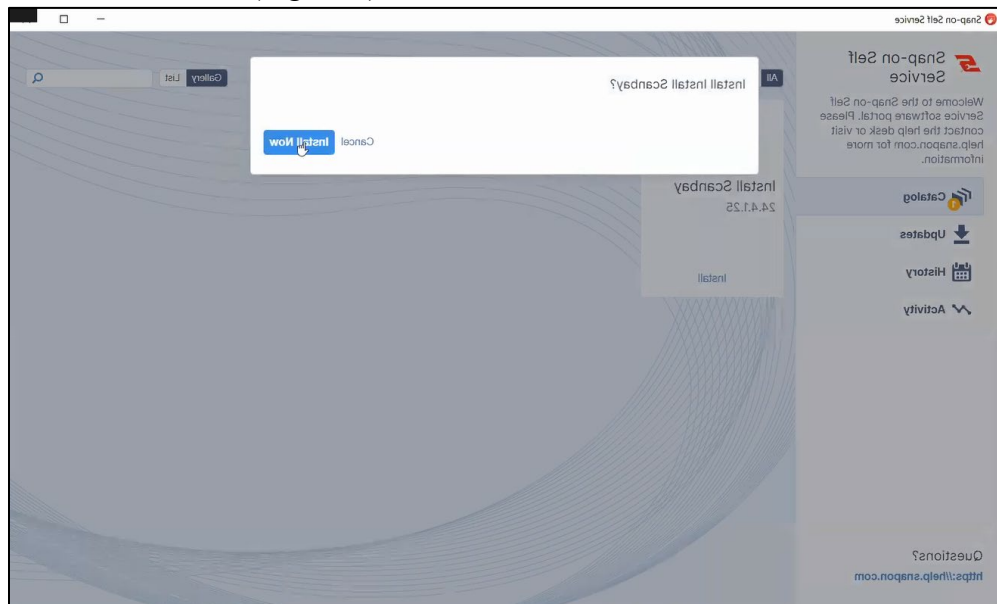

Step 3

Select Install for the software bundle version you wish to install (Figure 4).

Note: It may take up to five minutes to initialize the download.

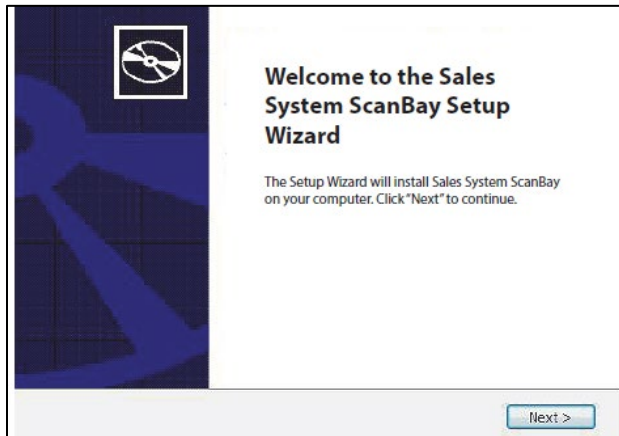

Select Install Now (Figure 5).

(Figure 5)

Step 4

The ScanBay Wizard Screen should appear on your desktop. Select Next on the ScanBay Welcome screen (Figure 6).

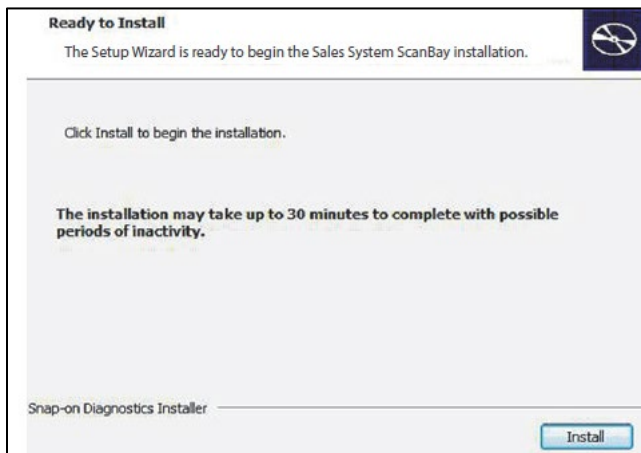

(Figure 6)

***Note:** You may need to minimize the or move the self-service window to see this screen*

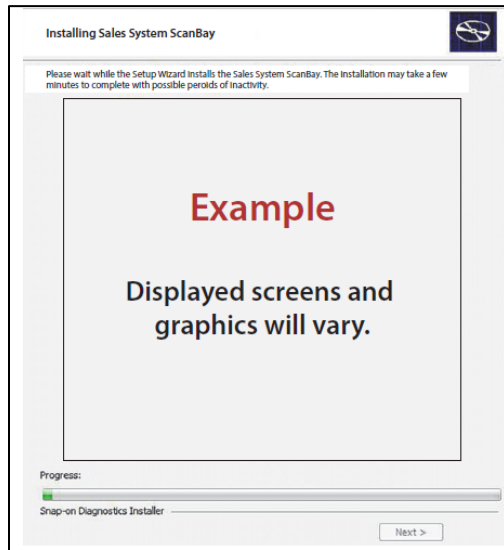

Step 5

Select Install from the Ready to Install confirmation screen (Figure 7).

(Figure 7)

An installation progress screen will display as the installation is performed. (Figure 8). Installation may take a few minutes to complete.

(Figure 8)

***Note:** Various informational screens may display as the installation continues.*

IMPORTANT: Allow the installation to run without interruption.

Step 6

When the installation is finished, a completion confirmation message is displayed (Figure 9). Select Finish.

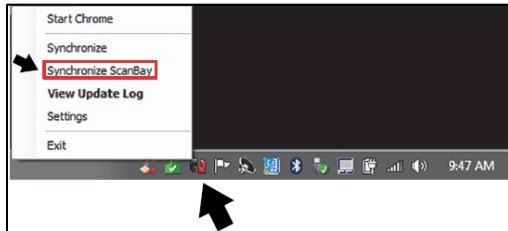

(Figure 9)

Step 7

ScanBay synchronization is required to register the installation and complete the synchronization with the Chrome server (Figure 10).

- A. Start Chrome and Chrome Notifier.
- B. Establish the Chrome Notifier connection with the Snap-on Chrome server.
- C. Right click the Chrome Notifier icon from the Windows taskbar, and select Synchronize ScanBay.

(Figure 10)

The ScanBay installation is complete.
