Snap-on®

NEW FEATURES AND ENHANCEMENTS

SECURITY LINK™

- **Technician Profile** management is easier than ever with the new Security Link wizard. The wizard simplifies manufacturer set up including automatic credential validation – making it faster to add a new OEM

DIAGNOSTIC TOOLS

ZEUS™, TRITON™, APOLLO™, MODIS™ and SOLUS™ Series / VERUS® Edge

- **Record and Reports** - Now add the Technician name after identifying vehicle. The technician's name appears in the vehicle record and any system reports
- **SureTrack® Top Repairs** on-tool graph filtering enhancements allow for only parts relevant to the specific repair be presented in the graph

ZEUS Series / VERUS Edge

- The **ADAS Report** now displays complete starting values as well as values after the calibration is complete

TRITON-D10™ / APOLLO-D9™

- **User-Interface improvements** that make menus easier to read and more
- Now receive **Over-the-Air** software updates and service release downloads 15% faster

ENHANCED GUIDED COMPONENT TESTS

ZEUS, TRITON and MODIS Series / VERUS Edge

- **Commonly used connectors drawings** are larger and sharper with new high contrast diagrams
- **New images** identify component location placement within select vehicles

New high contrast connector drawing diagrams

SMARTER. FASTER. FIXED.

SOFTWARE
Every Snap-on diagnostic tool offers one-touch code scan and clear and manufacturer-level data, exclusive access to Security Link, the Snap-on Cloud and industry-leading features for all the right information, right when it's needed.

EXPERIENCE-BASED SOFTWARE
Snap-on diagnostic tools bring more focus to every workflow, with SureTrack for verified parts replacement records and Real Fixes; Smart Data for relevant vehicle and code-specific PIDs; guided component tests for vehicle-specific procedures on millions of components; and access to pre-filtered functional tests for verifying repairs.

HARDWARE
Built to take on even the biggest challenges, every Snap-on diagnostic tool is designed specifically for the automotive industry and built to withstand the rigors of the shop, featuring a streamlined design, quick navigation, a rugged physical design and the technology it takes to be more productive in the bay.

UNMATCHED CUSTOMER SUPPORT
Every Snap-on diagnostic tool comes standard with industry-best Snap-on product support, access to online training, free support sessions with a diagnostic specialist and flexible financing.

- **Fast-Track® Intelligent Diagnostics**[*] guides users through every step to find the solution while avoiding the steps they don't need. It shows Real Fixes that are relevant to the fault code, highlights vehicle data that is out of expected range and provides filtered bi-directional tests, recalibrations, resets and relearns specific to the job at hand
- **Security Link** provides direct access to vehicles right from the scan tool for 2018 and newer Fiat Chrysler (FCA) models
- **Ethernet communications** support with applicable accessories for relevant Jaguar, Land Rover and Volvo vehicles
- The **Vehicle System and ADAS Recalibration Reports** provide a useful summary for your customers of the diagnostic work carried out
- Access to the **Snap-on Cloud** for up-to-the-second online storage. Archive, reference, retrieve and communicate Vehicle System Reports, thermal images and more to customers, colleagues, insurance companies
- Exclusive access to **SureTrack**, providing Real Fixes and verified parts replacement records from millions of successful repair orders
- Exclusive **Guided Component Tests** show how to test, where to connect and what results to look for
- **Guided Component Test Training** with over 70 topics and hundreds of on-tool courses ranging from 5-30 minutes, including Power User Tests, How To's and more
- **Software plans** to get the most comprehensive coverage and features
- Wide-ranging **support programs**, including a Customer Care hotline, extended warranty and free comprehensive online Training and Support
