GIVE THEM THE POWER TO BE THEIR BEST.

The fall software release extends your Snap-on diagnostic tool capabilities with 2025 model year updates for 14 models as well as new expert-based information that gives you the ability to do more with the same Snap-on tool you invested in. In every software upgrade we add coverage for late and older models and this release is no different with 70,000 new systems added and 600 more functional tests, plus 2025 code scan and clear for all makes.

Exclusive guided component tests and location images to locate components faster help speed-up and simplify your diagnosis and repair process. This data is continually enhanced and updated with information based on real experience, straight from technicians and validated by our engineers. This means thousands more SureTrack® Real Fixes, PID Flags, images, tests and tips.

DID YOUR CUSTOMER DOWNLOAD 25.4 YET?

Don't forget to remind your customers to keep their devices powered on, plugged in, and connected to Wi-Fi. Be sure to send them this video, which walks through how to download every upgrade like a PRO.

THE TRUTH OF THE MATTER IS WE'RE DIFFERENT

Not only do customers receive everything they expect, we also speed and simplify diagnosis and repair with exclusive Fast-Track® ID Troubleshooting Workflow, SureTrack® Real Fix Tips, Service Resets & Relearns and Fast-Track® Guided Component Tests, too. Plus, they get secure gateway access, ADAS, EV and Diesel coverage, simultaneous OBD-II and OEM Code Scan, and more features – all at no additional cost.

NEW COVERAGE

2025 MODEL YEAR UPDATE

Chevrolet®, Genesis®, GMC®, Hyundai®, Infiniti®, Kia®, Land Rover®, Lexus®, Mazda®, Mitsubishi®, Nissan®, Subaru®, Toyota®, and Volvo®

AUDI®

2024 A3®

Added Codes, Data & Functional Tests:

Transmission

ABS

Airbag

Body Control Module

Instrument Cluster

Rear Camera

Actuator For Exterior Noise

Windshield Projection

Antenna Module

2020+ E-TRON® GT

Added Codes, Data & Functional Tests:

Electric Drive

Instrument Cluster

Actuator For Exterior Noise

2015+ R8®

Added Codes, Data & Functional Tests:

Instrument Cluster

Airco

High Beam Assistance

4WD Electronics

BMW®

2009 - 2010 X6® HYBRID (E72)

Active Steering

Gear Selector Switch

Valvetronic/Valvetronic 2

Lateral Moment Distribution Rear Axel

ADDED CALIBRATION FOR ADAPTIVE CRUISE CONTROL

2019+ 2-Series® (F44)

2019+ 4-Series® (G22, G23,G26)

2018+ X3® (G01)

2016+ 7-Series® (G11, G12)

CHEVROLET®

2004 – 2017 SILVERADO®

Added Guided Component Tests for ABS System

Brake Booster Vacuum Sensor

Brake Fluid Level Switch

Brake Pedal Position Switch

Electronic Brake Control Module

Power/Ground Circuits

Steering Angle Sensor

Stop Lamp Switch

Traction Control Switch

Yaw Rate Sensor

2004 – 2013 SILVERADO® 4L60E/4L65E

Transmissions - Added Components

TCM

VSS

2004 – 2009 SILVERADO®

Starting System - Added Components

> Battery
>
> Clutch Switch
>
> Park Neutral Position Switch
>
> Starter
>
> Starter Relay

DODGE®

2023+ DODGE® HORNET - ADDED SPECIAL FUNCTIONS

Added Special Functions

> Electric Power Steering Control Module
>
> Reset Steering Angle Calibration
>
> Steering Angle Calibration
>
> Torque Sensor Offset Calibration

Adaptive Cruise Control Module

> Service Drive Alignment (SDA) Radar Calibration

FORD®

2021+ F-150®

Added Special Functions

| ABS Automated Brake Bleed

2021+ BRONCO®

Added Special Functions

| Body Control Module

| LIN New Module Initialization

2018+ TRANSIT®

Added Special Functions

| Front Camera Module Calibration

JEEP®

GRAND CHEROKEE®

Battery Pack Control Module (BPCM)

| Reset secondary contactor stuck closed fault

| Reset welded contractor fault

Drive Train Control Module (DTCM)

| DTCM calibration

| DTCM efficiency position (1 speed transfer case only)

| DTCM hard stop search (1 speed transfer case only)

| DTCM power down calibration

| Force 2WD high / activate rolls mode

RENEGADE®

Adaptive Cruise Control Module (ACC)

| Static Calibration

MERCEDES-BENZ®

2016 – 2023 METRIS®/VITO®

Added Coding For New Modules

| Air Conditioning Module

| Door Mirror Module

RAM®

RAM PROMASTER®

Battery Pack Control Module (BPCM)

| Enable HV Battery Contactors

| HVB Cell Voltage Difference Fault Reset

| HVB Impact Event Reset

| HVB Isolation Fault Reset

| HVB Level 2 Functional Safety Fault Reset

| Isolation Test

| Stuck Contactor Fault Reset

Electronic Vehicle Control Unit (EVCU)

- CPV Initialization
- CPV Position Control
- EXV Calibration
- EXV Position Control
- HV Cable Open Fault Reset
- Reset Impact Event Fault

SUBARU®

2001 – 2011 BAJA®, FORESTER®, IMPREZA®, LEGACY®, OUTBACK®, TRIBECA®

- Starting System

EXCLUSIVE & ADVANCED FEATURES

POWERFUL FEATURES & EXCLUSIVES — TODAY AND BEYOND

FAST-TRACK INTELLIGENT DIAGNOSTICS

Patented troubleshooting workflow filters data for the specific vehicle and code worked on.

SURETRACK

Provides Real Fixes and verified parts replacements based on billions of repair records.

SNAP-ON SECURITY LINK™

Connects the scan tool with the OEM for direct vehicle access to secured systems.

SNAP-ON® CLOUD

Storage for referencing plus communicating files to customers, colleagues and insurance companies.

TECHNICIAN PROFILE

A complete Security Link and Snap-on Cloud registration account for customers' tools

SNAP-ON® EXCLUSIVE GUIDED COMPONENT TESTS

Includes a step-by-step for where and how to hook-up and known good waveforms, component location images to identify vehicle component locations, plus hundreds of on-tool courses.

EXTENSIVE EV AND ADAS COVERAGE

Standard in every release.

DIAGNOSTIC HEALTH SCAN AND ADAS

Summaries, reporting the work completed.

SUPPORT PROGRAMS

With a dedicated North American-based Customer Care team, free online Training and Support, and more.

SOFTWARE UPGRADE 25.4

Training and Support

FROM A COMPANY THEY KNOW THEY CAN TRUST

HARDWARE

Built to take on even the biggest challenges, every Snap-on diagnostic tool is designed specifically for the automotive industry and built to withstand the rigors of the shop — featuring an intuitive design, quick navigation, a rugged build and the technology it takes to be more productive in the bay.

SOFTWARE

Every Snap-on diagnostic tool offers one-touch code scan and clear and manufacturer-level coverage, exclusive access to Security Link, the Snap-on Cloud and industry-leading features for all the right information, right when it's needed.

EXPERIENCE-BASED SOFTWARE

Snap-on diagnostic tools bring more focus to every workflow, with SureTrack for verified parts replacements and Real Fixes, Smart Data for code based data to streamline the diagnostic process, guided component tests for vehicle-specific procedures on millions of components, and access to pre-filtered functional tests for verifying repairs.

UNMATCHED CUSTOMER SUPPORT

Every Snap-on diagnostic tool comes standard with industrybest Snap-on product support, access to online training, free support sessions with a diagnostic specialist and flexible financing — plus on-demand assistance from you, their dedicated Snap-on Franchisee.

FAST-TRACK®

WHAT IS FAST-TRACK® INTELLIGENT DIAGNOSTICS?

It's technology exclusive to Snap-on® diagnostic scan tools that saves time with every single code.

Fast-Track® Intelligent Diagnostics provides diagnostic information specifically for the vehicle and code being worked on, enabling technicians to complete the repair quickly and confidently.

With ten times more codes on vehicles today than there were just a few years ago, customers need technology that makes diagnosing vehicle faults a quick and accurate process - which in turn will help you generate more income.

Navigate through the Diagnostic process with the help of the Fast-Track® ID landing page

EFFICIENT & CONVENIENT

Get information specific to the code and vehicle you're working on right then and there. Fix cars faster, better.

RELIABLE

With over 2 billion+ repair records from real technicians our Big Data provides the most comprehensive technical library there is. No need to leave the bay and scour the web or forums for answers

TRUSTED

Snap-on® Engineers verify all of the information provided – so customers are confident in the quality of data coming through

SMARTER. FASTER. FIXED.

Find out more at snapon.com/FTID-NA

SNAP-ON® SECURITY LINK

Car manufacturers are actively protecting their vehicles from unauthorized access and cyber threats, by securing vital systems behind gateways. We have partnered with manufacturers to bring you access to OEM secured modules through Snap-on Security Link. Snap-on Security Link streamlines the process between you, the scan tool, and the manufacturer, allowing you to perform OEM secured functions with ease.

MANAGE YOUR OEM REGISTRATIONS

As more OEMs adopt similar network protection technologies, Security Link offers a unified solution:

- Manage all your Snap-on diagnostic devices and OEM registrations in one place - your Technician Profile
- With profile completion you are ready to get to work

CRITICAL VEHICLE SYSTEM REPORTS

VEHICLE SYSTEM REPORTS

Speedy Approvals, Repairs and Payment Fast and accurate communications to customers and insurance providers move repairs along faster, speeding up the time it takes to finish the job and get paid.

DIAGNOSTICS HEALTH SCAN

The Diagnostics Health Scan is a straightforward, customer friendly report that simplifies results for vehicle owners before and after the repair. It helps speed customer repair approvals and illustrates repair success, conveying the shop's service value. With it comes the more detailed pre- and post-scan reports for shop use, especially helpful to quicken insurance processing.

ADAS RECALIBRATION REPORTS

A report that identifies the vehicle, the system and date of the recalibration. It also provides input values and detailed results.† Shops can show complete recalibration for multiple systems on one report.

All vehicle system reports are automatically uploaded to the Snap-on Cloud and also can be printed, emailed or viewed online.

Available on ZEUS™, TRITON™, APOLLO™, MODIS™, SOLUS™ and VERUS® Series with current software version.

SNAP-ON® CLOUD

With Wi-Fi, a Snap-on tool and the latest software installed, you can automatically upload and access images, vehicle system reports and much more from the Snap-on Cloud using a smart phone, tablet or PC.

CAPTURE

CAPTURE AND AUTO-LOAD REPORTS

With the most current Snap-on software loaded on a tool, users can capture all Vehicle System Reports, including the new Diagnostics Health Scan, on ZEUS, TRITON, APOLLO, MODIS and SOLUS Series and VERUS Edge

AUTOMATIC SCREENSHOT UPLOADS

Automatic screenshot uploads to Snap-on Cloud for ZEUS, TRITON, APOLLO, MODIS and SOLUS Series and VERUS Edge. Plus ZEUS, VERUS Edge or Diagnostic Thermal Imager owners can store pictures in the cloud, too

DIRECT REPAIR ORDER LINKAGE

Create permanent links directly to the saved image or report, which can be added to and accessed from shop management software

CATEGORIZE

MARK FILES

Identify images as "known good" or "known bad"

TAG FILES

File tagging makes keyword search fast for future reference

GET FILES

Retrieve by customer name, VIN or sort by date

COLLABORATE

COMPARE AND SHARE

Use with others to facilitate diagnosis and repair

BE THE EXPERT

Share "known good" or "known bad" images

COMMUNICATE

MULTILINGUAL SUPPORT

Select your preferred language to use while in the cloud. Toggle between English and 7 different languages, including Spanish and French.

MY NETWORK

Add up to 20 contacts and easily share files

FLEXIBLE SHARING

Communicate reports and images via text or email

SPEED IT UP

Shops can share pre-scan reports and images with customers to receive quick repair approvals, and post-scans with insurance companies to confirm OEM repair requirements have been met

SERVICE RESETS AND RELEARNS

The Service Resets & Relearns feature is a Snap-on exclusive. It provides procedures like functional tests, but it also checks Top Repairs from SureTrack expert information plus Technical Service Bulletins (TSBs) to offer a complete fix. With this feature, you can be confident when in the midst of replacing a component, the tool's software will automatically return any services that must be performed in order to successfully complete the repair, whether it is to the repaired component itself or associated components.

Published each month and available free of charge, each episode offers a smart approach to a faster and more comprehensive solution to complete vehicle repairs.

VIDEOS FOR PROFESSIONAL TECHNICIANS

Professional technicians can view Snap-on Service Resets and Relearns quick tip videos on its web page at snapon.com/srr-na or Snap-on Diagnostics YouTube channel.

AWARD WINNING SERVICE RESETS & RELEARNS

Snap-on is a People's Choice Award winner selected by the Professional Tool & Equipment News' (PTEN) Innovation Award program for its Service Resets & Relearns feature in the repair information category.

SURETRACK®

POWER THE REPAIR WITH SURETRACK REAL FIXES!

New content is continually added and with the latest software it's instantly accessible:

- Verified parts replacement records showing successful fixes
- Expert information hot-linked directly from diagnostic trouble codes
- Exclusive insight based on experience from over 2 billion repair records
- Vehicle-specific fixes based on symptoms, codes and mileage
- Definitive, reliable answers, validated by SureTrack expert technicians

Visit suretrackblog.com to show customers' successful solutions resolved by SureTrack and its community members!

ADAS IS HERE. ARE YOUR CUSTOMERS READY?

WHAT IS ADAS?

Commonly referred to as drivers' aids or safety systems, Advanced Driver Assistance Systems (ADAS) create a better driving experience by helping drivers navigate challenges as well as protect them and others from harmful actions and collisions.

Both collision and general repair shops perform common jobs that require recalibration to get the vehicle back on the road safely.

WHAT IS NEEDED TO PERFORM ADAS RECALIBRATIONS?

SNAP-ON DIAGNOSTIC PLATFORM

Snap-on ADAS coverage handles all recalibration, including Initialization, Dynamic and Static types.

STATIC RECALIBRATION AND TARGETS*

Static recalibration requires a Snap-on diagnostic platform and OEM-compliant physical targets to recalibrate cameras or sensors, like the John Bean® Tru-Point™ calibration system.*

SHOPKEY® PRO REPAIR INFORMATION SYSTEM

The ShopKey Pro Repair information system can complement the diagnostic tool's coverage before the repair by identifying ADAS systems present that require recalibration in a vehicle.

* Tru-Point ADAS Calibration System is sold by John Bean and part of the Tech Lead brokerage program. Leads must be submitted using the Chrome Tech Lead process to receive brokerage. Contact your local John Bean representative or refer to the lead brokerage card for more information.

SOFTWARE OPTIONS

SOFTWARE SUBSCRIPTION PROGRAM

With continuous software upgrades supplies domestic, Asian and European coverage, online software upgrades, and complete data services, such as Fast-Track ID, SureTrack, Snap-on Cloud and Security Link.

FAST-TRACK ID PREPAID PLANS

Plans include complete data services, domestic, Asian and European coverage, SureTrack and online upgrades

- One (1) Year Plan available for ZEUS, TRITON and APOLLO Series
- ZEUS Series Three (3) Year Plan offers prepaid plan services and coverage, plus a one (1) year extended warranty

SINGLE SOFTWARE UPGRADE

Offers six (6) months of domestic, Asian and European coverage. Includes data services, such as Fast-Track ID, SureTrack, Snap-on Cloud and Security Link.

EXTENDED WARRANTY PROTECTION†

THE INDUSTRY'S MOST COMPLETE, COMPREHENSIVE AND FLEXIBLE EXTENDED WARRANTY COVERAGE FOR ALL YOUR SUPPORTED SNAP-ON DIAGNOSTIC TOOLS.

The Snap-on Extended Warranty Program is the most comprehensive extended warranty in the business, offering the same complete coverage as the original warranty.

Whether customers choose 12, 24 or the 36 month extension, its universal protection remains the same!

Here are some key reasons why the Extended Warranty Program is right for your customer:

- Coverage equal to the original factory warranty
- Continuous protection for pennies a day
- Flexible financing available
- Protection against future parts and labor cost increases
- Increased resale value
- Can pay for itself in cost savings with just one repair
- Provides years of worry-free use
- 12, 24 or 36 month extended coverage†
- Genuine Snap-on service parts and expert service technicians
- Complimentary shipping and handling

†Extended Warranty Program available with new diagnostic tool purchases as well as any diagnostic tool while under its original Snap-on warranty

ENHANCED COVERAGE

ETHERNET / DOIP COMMUNICATION

Most Snap-on diagnostic scan tools now offer Ethernet access for those Jaguar, Land Rover and Volvo models that require it.

Ethernet-enabled accessories are required to harness this capability in the tool.

NOTE: Requires Bundle 23.2 software or newer.
