

DIAGNOSTIC FOCUS

What is Fast-Track[®] Intelligent Diagnostics?

It's a technology exclusive to Snap-on[®] diagnostic scan tools that can save you time on every single diagnostic code.

WHAT DOES IT DO?

Quite simply, it provides you with a diagnostic workflow that links problems to solutions. Enabling you to move efficiently through your diagnosis and get on with making the repair. With ten times more codes on vehicles today than there were just a few years ago, you need technology that makes diagnosing vehicle faults a quick and accurate process - which in turn will help you generate more income.

Technical Bulletins **2**

TSB Recalls, TSBs, OEM Campaigns

OEM info

Top Repairs for P0300

Smart Data

Code Specific Scanner Data

View a code related custom PID list where anomaly PID values are highlighted

WHAT MAKES FAST-TRACK® INTELLIGENT DIAGNOSTICS DIFFERENT?

Fast-Track® Intelligent Diagnostic features are available on APOLLO™, TRITON™ and ZEUS™ series products running current software.

EFFICIENT

Get information specific to the code and vehicle you're working on right then and there.

Fix cars faster, better.

RELIABLE

With over 2 billion+ repair records from real technicians our Big Data provides the most comprehensive technical library there is. No need to leave the bay and scour the web or forums for answers.

TRUSTED

Snap-on® Engineers verify all of the information provided – so you're confident in the quality of data coming through.

CUTTING EDGE

Continually updated with new fixes that are automatically synced to your tool via Wi-Fi.

Now that you know all about Fast-Track® Intelligent Diagnostics, visit our Tool Matcher to find out which Snap-on® Scanner is for you!
