

DIAGNOSTIC FOCUS

DIESEL COVERAGE FOR THE WIN

Ask any technician, what vehicles run for ever and are serviced often? Their answers are likely to include an array of diesel trucks. What's great about that? Snap-on® scan tools have great Diesel Truck coverage.

Our coverage for engine, transmission and ABS on these vehicles is truly extensive, and has many serviceable items such as transfer case to unlock the wheels, or locking differentials for front or rear axle selection. Plus, NOx sensor replacements, DEF service and maintenance, as well as ADAS are all at your fingertips!

6.7L CUMMINS®

6.7L POWERSTROKE®

6.6L DURAMAX®

2.0L 4-CYLINDER

AND MORE...
