SAY ‘SO LONG’
TO UNCERTAINTY.
AND LEAVE THE GUESSWORK
TO THE OTHER GUYS.

The TRITON-D10: Driven by Fast-Track® Intelligent Diagnostics from Snap-on®.
THE SUPER-CAPABLE, SUPER-INTUITIVE, SUPER-CERTAIN SCAN-AND-SCOPE TOOL.

Your job requires absolute certainty every time you make a repair. Which means you need an advanced diagnostic tool with scan and lab scope capabilities — from a company you’re absolutely sure you can trust.

The TRITON-D10 lets you dig deep into the systems of a vehicle and evaluate performance with comparative data. And thanks to Fast-Track Intelligent Diagnostics, it systematically eliminates the unnecessary and provides you with only the specific data and resources you need to make repair decisions on that vehicle under those circumstances.

Always-on, always-reliable access to dynamic repair information. Sophisticated, intuitive diagnostic testing and component verification. All from a single source.

Everything you need, and nothing you don’t. For complete confidence in your ability to make accurate and efficient decisions on every complex repair.

Hardware
The best tools can handle every challenge that comes their way. Designed and built specifically for the automotive industry to take on every day in the shop, the TRITON-D10 features a streamlined design with thin, rugged hand grips, an integrated scope with enhanced memory for capturing intermittent glitches and a 10” capacitive color touchscreen display.

Experience-Based Software
Working with complete confidence means getting the answers you need without any unnecessary distractions getting in the way. Fast-Track Intelligent Diagnostics enhances your workflow, with SureTrack® delivering verified parts replacement records and Real Fixes — along with Smart Data for relevant vehicle and code-specific PIDs, plus access to prefiltered functional tests and guided component tests to verify repairs.

Software
You don’t have time to waste when it comes to finding the information you need. The TRITON-D10 offers sophisticated verification and testing functionality, including advanced graphing features and OEM-level data — plus a guided CTM/scope for verifying component failure, fast bootup and one-touch code scan and clear.

IN A WORLD OF OBSTACLES, BE THE ONE WHO STAYS THE COURSE.

As a go-to technician, you need to move quickly when a vehicle needs diagnostic evaluation. You can’t afford to be bogged down by fragmented information—or too much data unrelated to what you need.

Driven by Fast-Track Intelligent Diagnostics, the TRITON-D10 filters a universe of data and provides you with a route to the answers you need: a single reliable solution to save you time when troubleshooting and bring more certainty to every repair.

Intuitive Start Screen

The Fast-Track Intelligent Diagnostics landing page shows you a comprehensive view of a logical diagnostic workflow, guiding you through the repair you’re working on and avoiding unnecessary steps along the way—all on a single screen.

Top Repairs
Graphical display of the specific parts and procedures most frequently used at a specific mileage to fix the selected code

Smart Data
Provides a relevant data set for the specific vehicle and code you’re working on, highlighting PIDs that are out of expected range with all data recorded, all the time

Technical Service Bulletins
Up-to-date, one-click access to relevant vehicle and code-specific OEM TSBs

Functional Tests
Access to a pre-filtered list of functional tests and resets, letting you quickly verify component operation

Guided Component Tests
Vehicle-specific procedures for millions of components to verify every fix

Real Fixes
Verified repairs, tips and fixes from other Technicians via SureTrack®

Quick Access Menu
Ability to switch quickly between functions at any time to speed up every diagnosis

Service Resets and Relearns
Access to reset and relearn procedures, letting you reset learned values when you fit a new component to the vehicle you’re working on—plus a repairs graph and any available TSBs for every test

Pre and Post Scan Capability
Faster approvals, histories, repairs and payments, with pre-scan, post-scan and ADAS calibration reports sent to your Snap-on Cloud account for printing, storing, or sharing via email or text

Code Scan and Code Clear
Lightning-fast code scans, with a complete overview of the vehicle and its history for fast triage and workflow organization; “Clear All Codes” lets you quickly finish the repair

360 DEGREES OF INTELLIGENCE YOU CAN TRUST.

Hardware
- Streamlined design with thin, rugged hand grips
- 10" capacitive color touchscreen display for improved readability, superior visibility and user-friendly navigation
- Integrated two-channel lab scope with enhanced memory for verifying component failure and capturing intermittent glitches
- Quick Access Menu for switching between functions without having to go back to the start of the process

Software
- Sophisticated verification and testing functionality, advanced graphing features and OEM-level data
- Comprehensive and detailed functional tests
- OEM-specific coverage for over 49 Asian, domestic, and European makes and over 100 vehicle systems
- Instant vehicle identification for most 2008 and newer vehicles
- Up to eight live data parameters displayed onscreen at a time
- Records all data, all the time for easy switching to view alternate PIDs
- One-click access to relevant vehicle- and code-specific technical service bulletins (TSBs)

Experience-Based Software
- Patented Fast-Track Intelligent Diagnostics workflow and filtered information for bringing focus to the specific vehicle and code you’re working on
- Access to SureTrack, a patented resource for verified parts replacement records and Real Fixes harvested from millions of successful repairs
- Access to common procedures, specs and service interval resets
- Patented Smart Data, delivering relevant vehicle and code-specific PIDs—and highlighting those that are out of expected range

Unmatched Customer Support
- Snap-on Customer Care, available at diagnosticssupport@snapon.com and 800-424-7226
- Online training and support available 24/7 at diagnostics.snapon.com/trainingsolutions
- National online training on industry topics available weekly; go to snapon.com/virtualtraining
- Finance options available—ask your Franchisee or other Snap-on sales representative for details
- The Snap-on Cloud at altusdrive.com: save, sort and share pre/post scan and ADAS calibration reports—and show your customers the value of the work you do
