

BRING OUT THE BEST IN EVERY DIAGNOSTIC PLATFORM.

Software Upgrade
April 2022

NEW COVERAGE HIGHLIGHTS†

- **Automotive Update for Model Year 2021:** Acura®, Alfa Romeo®, Audi®, BMW®, Chrysler®, Dodge®, FIAT®, Ford®, Honda®, Jaguar®, Jeep®, Kia®, Lincoln®, Mercedes-Benz®, MINI®, Porsche®, RAM®, VW®
- **Motorcycle Update for Model Year 2021:** BMW, Ducati®, Harley-Davidson®, Honda, Indian®, Kawasaki®, Suzuki®, Yamaha®
- **Expanded Code Scan and Clear Codes for Model Year 2022**
- 2021 Ford: **Module Reprogramming** or PMI (Programmable Module Initialization) for 28 modules
- 2021 GM®: **Freeze Frame data** for select 3.0L and 6.2L engines

NEW FEATURES AND ENHANCEMENTS†

- **All Fast-Track® Intelligent Diagnostics platforms will now have access to 9 motorcycle makes** - accelerate motorcycle maintenance tasks with special functions like brake bleeding, service light resets, compression tests and fuel tank drain
- **Component Test Meter (CTM) classes can now be found easily** in the main menu under Training and Support
- Platforms that use **ShopStream Connect™** for software updates will have a **dedicated on-tool page** that links to the relevant download information

SMARTER. FASTER. FIXED.†

- **Fast-Track Intelligent Diagnostics** guides users through every step needed to find the solution, while avoiding the steps they don't. It shows Real Fixes that are relevant to the fault code, highlights vehicle data that is out of expected range and provides filtered bi-directional tests, recalibrations, resets and relearns specific to the job at hand
- **Security Link™** provides direct access to vehicles right from the scan tool for 2018 and newer Fiat Chrysler (FCA) models
- **Ethernet communications** support with applicable adapter for relevant Jaguar, Land Rover® and Volvo® vehicles
- The **Vehicle System and ADAS Recalibration Reports** provide a useful summary for your customers of the diagnostic work carried out
- Access to the **Snap-on® Cloud** for up-to-the-second online storage. Archive, reference, retrieve and communicate Vehicle System Reports, thermal images and more to customers, colleagues, insurance companies
- Exclusive access to **SureTrack®**, providing Real Fixes and verified parts replacement records from millions of successful repair orders
- Exclusive **Guided Component Tests** show how to test, where to connect and what results to look for
- **Guided Component Test Training** with over 70 topics and hundreds of on-tool courses ranging from 5-30 minutes, including Power User Tests, How To's and more
- **Software plans** to get the most comprehensive coverage and features
- Wide-ranging **support programs**, including a Customer Care hotline, extended warranty and free comprehensive online Training and Support

- 2017-2021 Lincoln Continental: **Special functions added to 5 Body and Drivetrain** systems
- 2021 Toyota® Sienna: Codes, data and **special functions for the Power Sliding Doors**
- 2020-2021 Lexus® LC500c: Codes, data and **special functions for the Roof (convertible top)** ECU
- 2008-2015 BMW F Series: **Initialize Rain/Light Sensor special functions**
- 2002-2009 Mercedes-Benz CLK: Codes, data and **special functions for the Electronic Ignition Switch** and the **Seat/Door systems**

- The **Smart Data graph view on ZEUS®** has had a major update. The Clear-View Flag Tracker speeds up root cause diagnosis, with a flag drop function, simplified navigation, a new graph view format
- **Functionality update to the 'Previous Vehicles and Data' screen.** When techs log mileage and license plate it will be saved into the platform history. Available on APOLLO-D9™ and TRITON-D10™
- **Live Vehicle Battery Voltage reading** on Fast-Track Intelligent Diagnostics platforms makes it easy to know when it is ready to perform tests

SOFTWARE

Every Snap-on® diagnostic platform offers one-touch code scan and clear and manufacturer-level data, exclusive access to the Snap-on Cloud and industry-leading features for all the right information, right when it's needed.

EXPERIENCE-BASED SOFTWARE

Snap-on diagnostic platforms bring more focus to every workflow, with SureTrack® for verified parts replacement records and Real Fixes; Smart Data for relevant vehicle and code-specific PIDs; guided component tests for vehicle-specific procedures on millions of components; and access to pre-filtered functional tests for verifying repairs.

HARDWARE

Built to take on even the biggest challenges, every Snap-on diagnostic platform is designed specifically for the automotive industry and built to withstand the rigors of the shop, featuring a streamlined design, quick navigation, rugged handgrips and the technology it takes to be more productive in the bay.

UNMATCHED CUSTOMER SUPPORT

Every Snap-on diagnostic platform comes standard with industry-best Snap-on® product support, access to online training modules, free support sessions with a diagnostic platform specialist and flexible financing.

Contact your Snap-on Franchisee or other sales representative. More information is available at snapon.com/diagsw.
