## PICK YOUR PLATFORM.

# AND PREPARE YOURSELF FOR THE FUTURE.

When you invest in a Snap-on® diagnostic platform, you're making a commitment to yourself — and to your future as a diagnostic technician. And whichever one you choose, keeping it up to date with the latest software ensures you always have access to the most advanced features, content and coverage in the industry.

### STAY UP TO DATE AND STAY ON TOP

Snap-on diagnostic software offers more vehicle coverage than any other software in the industry, along with unmatched breadth and depth in manufacturer-level capabilities for the codes, data, and tests you need to stay productive in the bay.

Our vehicle and system coverage is constantly evolving, with regular updates designed to keep pace with manufacturer and industry changes. Consistent navigation and terminology across all makes, advanced data graphing capabilities, and fast access to the most frequently used specifications and capacities means that with current software you're always ready to tackle even the toughest jobs that come your way.

# RESOURCES TO HELP YOU BE YOUR BEST.

### SUPPORT

When you choose a Snap-on diagnostic platform, you get the smartest and most responsive customer support in the industry to go right along with it — and you set yourself up with a company that can help you become the best diagnostic technician you can be.

### CUSTOMER CARE

Our experienced US-based Customer Care Representatives are available at [diagnostics\\_support@snapon.com](mailto:diagnostics_support@snapon.com) and during business hours on our Customer Care Hotline at 800-424-7226.

### TRAINING

#### ON OUR WEBSITE AND ON YOUTUBE™

We offer a wealth of product training available online to help you discover everything your Snap-on diagnostic tool can help you do. Find all this and more at [diagnostics.snapon.com](http://diagnostics.snapon.com) or on our YouTube channel @snapondiagnosics:

- Access our **Knowledge Base** for user guides, questions and answers
- See **instructional videos** from expert technicians to learn about the latest diagnostic techniques and how to take advantage of everything your diagnostic tool has to offer
- Visit our **Quick Tips** playlist to see videos showing how your Snap-on diagnostic tool can help you diagnose and resolve specific vehicle issues
- **Weekly Live Training** sessions covering a variety of subjects designed to help build your diagnostic knowledge

### GUIDANCE

Even the most experienced technician can run into a few questions every now and then. Your Snap-on sales representative is a one-on-one customer service advisor who can help you navigate any challenges that come your way.

# SNAP-ON DIAGNOSTIC SOFTWARE SUPERIORITY COMES STANDARD.

Snap-on diagnostic tools are known the world over for great performance, rock-solid construction and intuitive design. But what truly makes them the best in the industry is what we put into them — both when they're built and over the life of every tool.

Ensuring your software is up to date means that every feature on your diagnostic tool is always ready for the next job that comes into the shop. With no extra payments and no extra hassles.

## THE INDUSTRY'S BEST, FROM STEP TO STEP

With more than four decades of experience and over one million scan tools sold, Snap-on proudly designs, engineers, manufactures and supports what we sell. Snap-on diagnostic software comes fully loaded with patented features to make your job faster, easier and more intuitive every day in the bay — plus affordable software options and world-class North America-based customer care.

- More vehicle coverage than any other diagnostic tool in the industry
- Manufacturer-level capabilities for codes, data and tests
- Consistent navigation and terminology across makes
- Advanced data graphing, and quick access to the most common specifications and reset procedures

# THE FASTEST PATH TO FIXED.

The industry's most comprehensive source of expert knowledge for professional technicians, SureTrack combines real-world insights with repair time-savers and detailed parts replacement records to help you build the right diagnostic strategy for every vehicle that shows up in your bay.

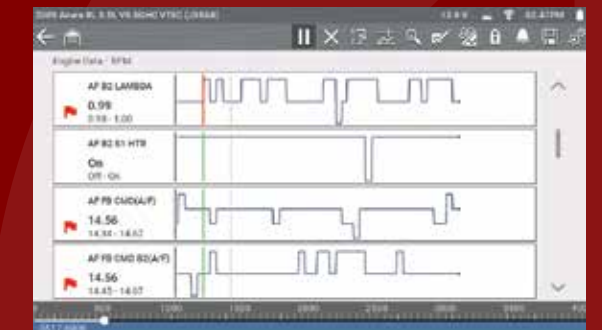

## SURETRACK TOP REPAIRS GRAPH

Provides a graph by mileage of the parts and procedures used to fix the selected code or symptom, letting you see what has worked for others in that specific situation.

## REAL FIXES

Shows you what has worked for other technicians, based on expert knowledge from professionals who have seen — and solved — the same vehicle issues you're facing.

## SMART DATA

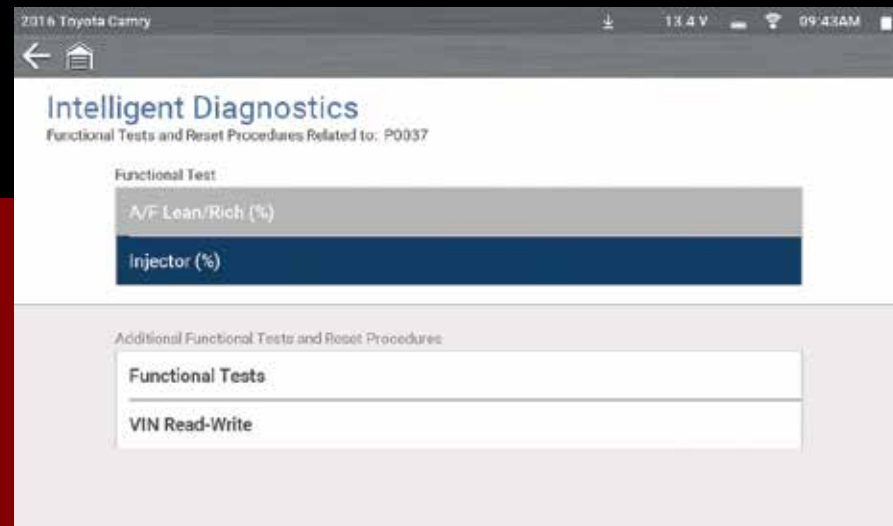

Delivers a code-based data list, highlighting PIDs that are out of expected range — with all data recorded, all the time.

## TECHNICAL BULLETINS

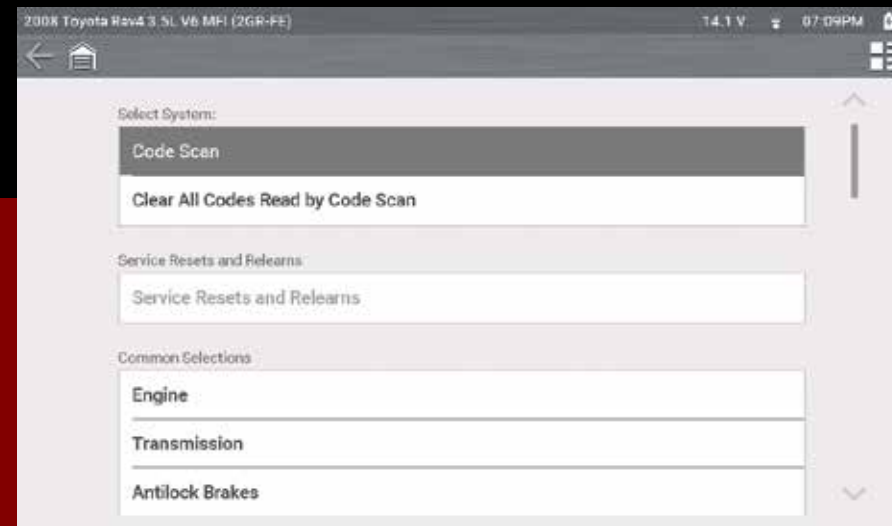

Gives you up-to-date, one-click access to relevant vehicle and code-specific OEM recalls, campaigns, and bulletins.

# EXCLUSIVE ADVANTAGES. FROM A DIAGNOSTIC PARTNER YOU CAN TRUST.

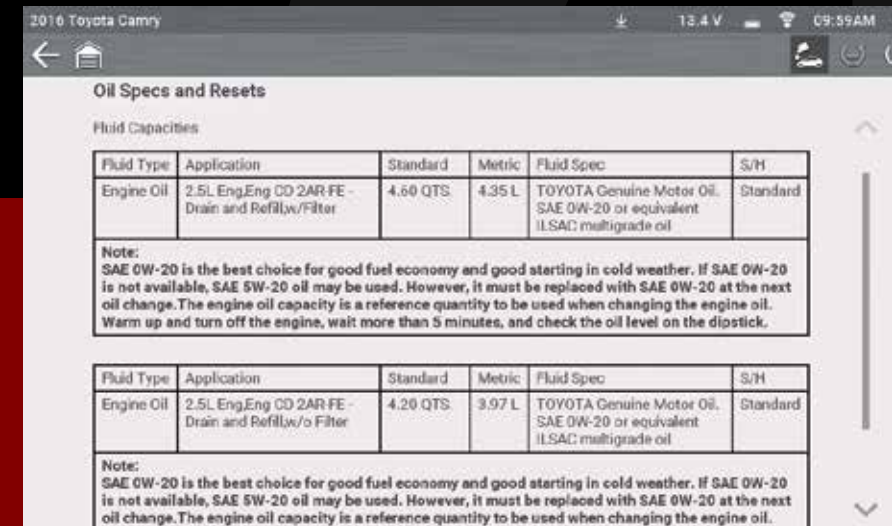

## FUNCTIONAL TESTS AND RESETS

Supplies a pre-filtered list of functional tests and resets, letting you quickly test, verify and reset component operation.

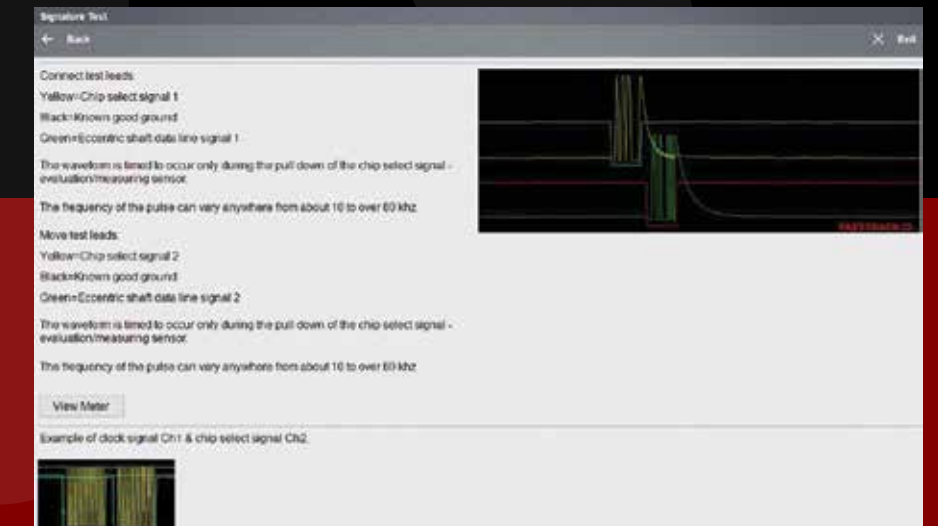

## COMPLETE CODE SCAN

Pre- and post-scan functions quickly identify all codes for every system. Reports are automatically saved to the Snap-on Cloud and can be easily shared with customers.

## OIL SPECS AND RESETS

Quick access to detailed fluid specifications, capacities, important notes and service interval resets.

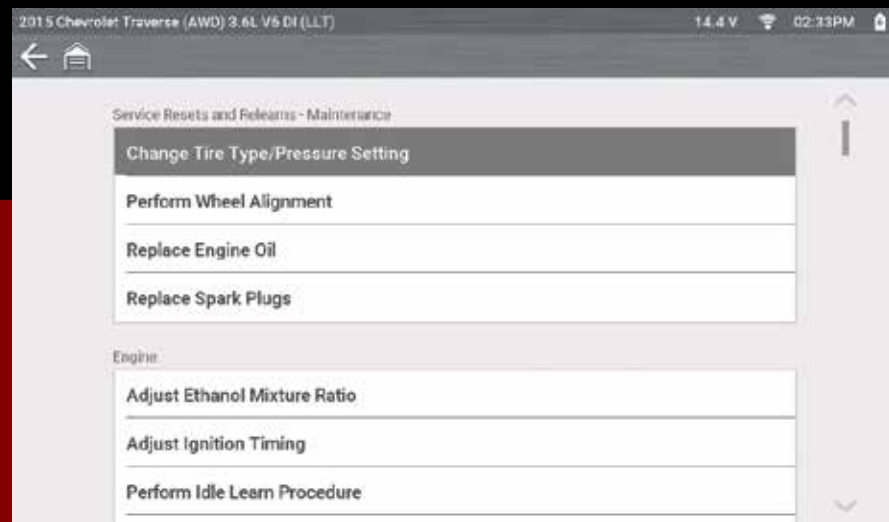

## GUIDED COMPONENT TESTS

Vehicle-specific procedures for millions of components to verify the fix. See step by step where to hook up, how to hook up, known good waveforms and specific location images.\*

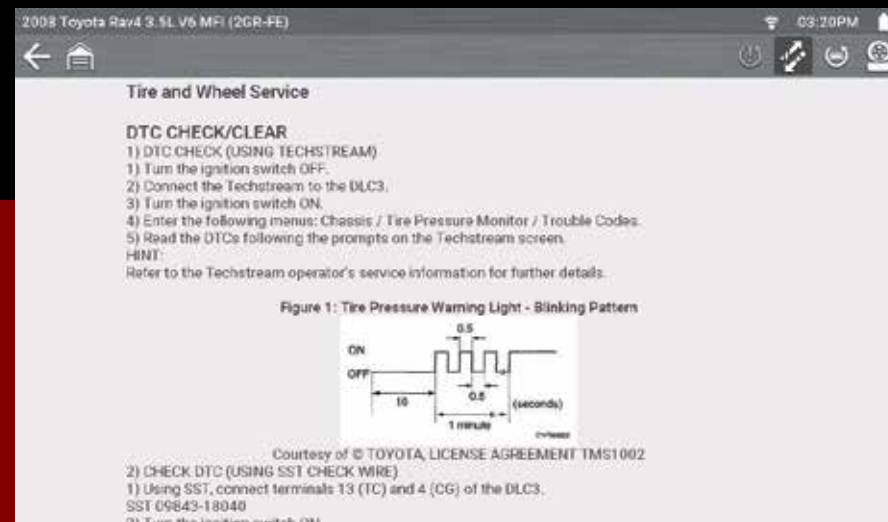

\*Available on current MODIS™, TRITON™, ZEUS™ and VANTAGE™ platforms. Available features vary by platform. Visit [snapon.com/diagnostics](http://snapon.com/diagnostics) for more information.

# THE INDUSTRY'S MOST COMPREHENSIVE SOURCE OF EXPERT KNOWLEDGE FOR PROFESSIONAL TECHNICIANS.

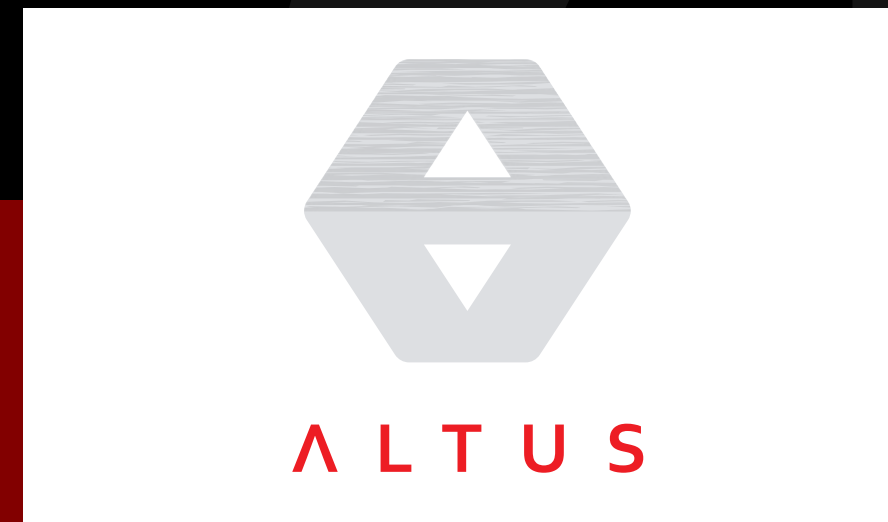

## SERVICE RESETS AND RELEARNS

Snap-on diagnostic software organizes tests and relearns by common repair procedures across all makes. A related repairs graph highlights other fixes that should be considered. OEM technical bulletins are also provided — all to help you complete jobs more quickly and save you from comebacks.

## TIRE AND WHEEL FITMENT

Comprehensive instructions for TPMS reset and replacement, tire fitment, and torque specs.

## SNAP-ON CLOUD

Vehicle system reports and image captures are automatically saved to the Snap-on Cloud so you can access and share them from your phone or computer whenever needed.

# ADAS & EV COVERAGE

Modern vehicles are more advanced than ever, and we know how critical it is to have the right coverage at the right time. That's why ADAS and EV coverage comes standard with Snap-on diagnostic software — at no additional charge.

## NO HIDDEN FEES. JUST EVERYTHING YOU NEED — ALWAYS INCLUDED.

From radar sensors to EV powertrains, there are few jobs left that don't require recalibration. Snap-on diagnostic software ensures your tool is always equipped with the latest ADAS and EV capabilities, without any surprise fees or upgrade costs. All you need is the most current software and you're ready to work.

# SECURE GATEWAY ACCESS

Car manufacturers are always actively protecting their vehicles from unauthorized access and cyber threats by securing vital systems behind gateways. We've partnered with manufacturers to bring you access to OEM secured modules through Snap-on Security Link.™

Snap-on Security Link streamlines the process between you, the scan tool and the manufacturer, allowing you to perform OEM secured functions with ease. Keeping your software current ensures continued access so you can work with complete confidence every day.

## SEAMLESS INTEGRATION — AT NO ADDITIONAL COST

Our tools connect with these manufacturers' secure gateway vehicles — all at no additional cost: <sup>1</sup>Chrysler, <sup>1</sup>Dodge, <sup>1</sup>Jeep, <sup>1</sup>RAM, Volkswagen, Audi, <sup>1</sup>Mercedes-Benz, <sup>1</sup>Nissan, Volvo, Ford, Hyundai, Kia.

<sup>1</sup>AutoAuth account and subscription required by the manufacturer.
