Snap-on® Now Offers PRO-LINK® Ultra Diagnostic Scan Tool Software for Volvo® and Mack® Engines

KENOSHA, Wis. (December 21, 2017) – The newest addition to the Snap-on® suite of problem-solving products is the EEHD867011 PRO-LINK® Ultra Diagnostic Scan Tool Software designed specifically for Volvo® and Mack® electronic engines. This v.3.0 software offers coverage for EPA ’07 and EPA ’10 in addition to updated EPA ’13 versions with OEM-provided data. The software also includes proprietary fault and data point descriptions.

"With more than a dozen special tests included in this release, the PRO-LINK Ultra Diagnostic Scan Tool Software allows technicians to quickly determine issues with Volvo and Mack electronic engines," said Dave Shock, a Snap-on product manager. "The v.3.0 software upgrade will provide a variety of new benefits and efficiencies to our customers who work on these engines."

The advanced features of the new EEHD867011 PRO-LINK® Ultra Diagnostic Scan Tool Software for Volvo® and Mack® electronic engines include:

- Aftertreatment DPF System Reset
- Aftertreatment Hydrocarbon Dosing
