Heavy-Duty Parts Washer from Snap-on® automates cleaning to save technicians valuable time

KENOSHA, Wis. (Nov. 15, 2018) – The new Snap-on® PBC58 Heavy-Duty Automatic Parts Washer can be used to effectively clean many large automotive parts such as gas and diesel engine blocks, cylinder heads, valve covers, pans, transmission cases, as well as smaller items down to nuts and bolts. It is well-suited for a variety of shops and industries, including automotive and diesel shops, marine and powersports dealers, and manufacturing, aviation, agriculture, metal fabrication, industrial trade and technical schools.

"An effective parts washer is vital for shops that service newer, larger six-cylinder fuel efficient diesel engines," says Michael DeKeuster, a Snap-on Tools product manager. "The PBC58 powerfully dissolves the hard-to-reach dirt and grime that may be baked onto parts after continuous use and is essential for parts that cannot be thoroughly cleaned through a manual process. Technicians can use this heavy-duty parts washer to automate the cleaning process for several tools simultaneously, saving valuable work time."

The PBC58 automatically cleans parts using a biodegradable aqueous soap concentrate (YADW896B) that heats to 45 PSI and sprays from 24 high-pressure nozzles at 42 GPM. Its five RPM turntable is driven by a #40 roller chain for rotation without slippage, and it pulls out 18" for easier part loading. Both the sprocket drive and turntable motor have dual-sealed bearing shafts for longevity and strength.

The washer can accommodate a load capacity up to 1,000 lb., and its cycle time can be adjusted from zero to 60 minutes. An integral oil skimmer and pump reservoir filter is included to remove oil and grease, and a double intake filtration system traps sludge with a perforated steel screen filter. Manufactured in the United States, the PBC58 is ruggedly constructed from 12-gauge steel with solid welded seams.

Find out more about the PBC58, as well as other tools and products, by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and internet channels. Snap-on Incorporated, which was founded in

1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wisconsin, with operations throughout the world. For additional information, visit www.snapon.com.
