In "Top Tools" News from Snap-on:

Shops and Techs can "piece" together a productive fall with these multi-piece sets from Snap-on

KENOSHA, Wis. (Sept. 17, 2018) – The official start of fall is just days away, and Snap-on has more multi-piece tool sets than there are colors in the season. From punches to wrenches, Snap-on offers solutions to make this fall the most productive and profitable season of all.

1. Snap-on® SPHDSET4 - 4-piece Heavy-Duty Spring Punch Set

This heavy-duty punch set utilizes a patented spring and plunger combination, eliminating the need for a hammer and reducing the risk of injury. The unique design delivers accurate blows with up to 5,000 PSI impact force on the toughest materials. Knurled shanks give techs a better grip for precision control, even when using gloves. The four-piece set includes a transfer punch, cold chisel punch, center punch, and pin punch.

2. Snap-on® WINS240R - 3-piece Wire Insertion Tool Kit

The Snap-on 3-piece Flexible Wire Insertion Tool Kit gives techs the flexibility needed to maneuver around obstacles without damaging delicate wires, saving time and money. The 4.5 mm diameter shaft can hold a tight radius, and the handle is interchangeable with Snap-on WINS100 series straight tube shafts. The set is perfect for HVAC wiring, as well as wiring through motorcycle frames, automotive windows, doors, dashboards and firewalls. The WINS240R comes with a thermoformed storage tray and a lifetime warranty.

3. Snap-on® IPK1760 - Sprinter Van Diesel Injector Puller Kit

The IPK1760 kit removes stuck injectors in 2.7L Sprinter engines in a fraction of the time it takes using other methods, while helping to avoid damage to the injector or valve cover. After extended use, excessive combustion leaks and corrosion, these particular injectors cannot be removed by conventional methods and sometimes must be destroyed to extract them. By simply removing the top of the injector with tools included in the kit, the injector can be extracted without causing further damage. The kit also includes items to clean the injector seat and chase the thread on the clamp hole. It works on Dodge Sprinter 2003-2009, 2.7L 2500 and 3500, as well as Freightliner Sprinter 2002-2007, 2.7L 2500 and 3500 diesel models.

4. Snap-on® SOXRM710 - 10-piece 12-point Metric Flank Drive Plus Non-Reversing Ratcheting Combination Wrench Set

Techs will find that the Flank-Drive® Plus design of these wrenches provides up to 62 percent more turning power, and the open-end wrenching profile "bites" into fasteners to prevent slipping and rounding. The uni-directional, 0° offset design incorporates innovative Snap-on® technology to deliver more power in less lateral space, helping to access and remove the most stubborn fasteners even in tight quarters. The ratcheting gear, with up to 80 teeth, and 8-tooth pawl minimizes the swing arc needed to move fasteners in restricted spaces. This set of 10 ratcheting combination wrenches (sized 10-19 mm) is manufactured, precision-forged and heat-treated in the Snap-on Elizabethton, Tennessee facility. The

gears are cold-formed for ultimate toughness using the same proprietary steel found in Snap-on sockets.

Customers can learn more about piecing together a more productive fall with these multi-piece tool sets and kit by contacting their Snap-on franchisee or other sales representative, visiting www.snapon.com or calling toll free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and Internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wis. with operations throughout the world. For additional information, visit www.snapon.com.
