Snap-on introduces PT650 1/2" hard-handled Impact Wrench

KENOSHA, Wis. (July 9, 2018) – The new Snap-on® PT650 Impact Wrench is a hard-handled version of its big brother the PT850. Following in the footsteps of the PT850, the PT650 features a new housing, nose piece, trigger and improved internals. Cold forged hammers and precision machined frame and anvil create tighter tolerances and load distribution producing harder-hitting blows and greater durability. The PT650 features one-handed forward and reverse selection, as well as a large, simple, four-position power level adjustment. It is engineered to be a comfortable-to-use tool for all-day work.

"This tool weighs only 4.3 pounds and is the perfect solution for automotive and industrial work on axle and lug nuts; suspension, drivetrain and transmission repairs; seat bolts and front-end work," says Rodger Isetts, a Snap-on Tools product manager. "The PT650 is an excellent impact wrench for general use in a technician's collection. It has an improved center of gravity over the MG725 1/2" Drive Air Impact Wrench and is better balanced in the user's hand with carefully positioned controls and a well-placed regulator for easy adjustment."

Improved materials used in the PT650 provide less porous, more solid components to deliver bolt breakaway torque of 950 ft. lbs., torque reverse of 650 ft. lbs., torque forward of 480 ft. lbs., RPM free speed of 5,600, and the ability to strike 1,100 blows per minute. The PT650 is made at the Snap-on manufacturing facility in Murphy, North Carolina.

Find out more about the PT650, as well as other tools and products, by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wisconsin, with operations throughout the world.
