"Snappy" holidays made possible with Snap-on Holiday Gift Guide specials

KENOSHA, Wis. (Nov. 13, 2018) – Shoppers can make this holiday season a “Snappy” one for any technician or Snap-on® enthusiast by choosing items from the November 2018 Snap-on Holiday Gift Guide. Check out these undeniably favorite hand, power and shop tools:

Hand Tools

- **Snap-on® 12-piece 3/8" Drive 6-point Metric Flank Drive® Shallow and Deep Socket Sets (212FSMY and 212SFSMY)**

Manufactured from the highest quality proprietary steel to provide optimum power and durability, these Snap-on sockets feature concentric, thin wall construction for improved strength and accessibility. Their 6-point configuration features the innovative Flank Drive® Wrenching System to provide flat-to-flat contact between the socket and fastener for up to 20 percent more turning power.

- **Snap-on® OXKRM707 7-piece 12-point Metric 0° Offset Short Handle Ratcheting Combination Wrench Set**

This set of seven ratcheting combination wrenches (sizes 8-14 mm) features Snap-on Dual 80® technology to minimize swing arc when working in restricted spaces. The wrenches' patented 80-tooth ratcheting mechanism delivers up to 25 percent more torque while providing up to 95 percent more cycle life. The 0° offset handles transfer more power in less lateral space. Manufactured from same proprietary steel found in Snap-on sockets, the wrenches are precision-forged and heat-treated for optimum strength and durability. A nickel-chrome finish helps protect against corrosion and makes it easy to wipe the wrenches clean.

Power Tools

- **Snap-on® CDR761B 14.4 V 3/8" MicroLithium Cordless Drill Kit**

Although its 150 in-lb of torque is powerful enough for a wide variety of applications, the CDR761B weighs less than 2.5 lbs with the battery. Its small size allows it to get into tight spots such as under the dash and behind firewalls. The variable-speed switch provides good featherability for control at low speeds (400 RPM), while the high speed output (1,400 RPM) is ideal for drilling steel. Changing bits is easy with the 3/8" keyless steel drill chuck. Techs lucky enough to receive this kit as a gift will also get a charger, tote bag and an additional battery.

- **Snap-on® PTR72 3/8" Drive Super-Duty Air Ratchet**

This Super-Duty Air Ratchet features 70 ft-lb of torque output to remove stubborn fasteners, yet easily withstands up to 158 ft-lb of manual torque. Its 275 RPM of free speed is perfect for fast removal and installation of fasteners, and its steel wear bushings reduce ratchet head wear. The ratchet also includes dual pawls for added strength and “stop lock” pins to prevent

ratchet pawl lockup. Users also benefit from a tip valve-style trigger, making it easy to feather for greater control.

Shop & Tech

- **Snap-on® BK5600DUAL85 Scope with Dual 8.5 mm Imager**
Seeing and troubleshooting hidden issues is made simpler with this scope – users benefit from a 36"-long digital imager with an 8.5 mm diameter head, and enhanced viewing on the unit's 4.3" (109 mm) diagonal LCD screen. Digital still images can be captured and stored onto the included SD card, and a touch-screen interface enables easy feature selection. The tool uses six AA Alkaline batteries and includes a 90-degree glass mirror, magnet retrieval accessory and storage tray.
- **Snap-on® CTLFD8850A 18 V 3,500 Lumen Cordless Floodlight**
Select the right amount of light for every situation with the 3,500 Lumen cordless CTLFD8850A. The variable range of brightness settings and the ability to remember the last setting make it a smart tool. The floodlight operates on a standard 18 V Snap-on cordless tool battery, allowing two hours of run time on maximum brightness and 50 hours at minimum brightness. It pivots up to 100° for ease of use. Additional features include a USB port to charge other electronics, durable housing and large, well-defined handles for portability.

Customers can learn more about these favorite tools and others in the 2018 Holiday Gift Guide, available at special pricing through November 30, 2018, by contacting their Snap-on franchisee or other sales representative, visiting www.snapon.com or calling toll free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks.
