These Snap-on products will have others "green" with envy

KENOSHA, Wis. (July 23, 2018) – Everything is greener in the summer including this great selection of Snap-on tools and products. They will boost productivity to save techs time to earn more greenbacks and will have others "green" with envy. Several of these tools come in additional colors for a variety of options.

Snap-on® MG325G 3/8" Drive Heavy Duty Impact Wrench

The Snap-on MG325G is compact, balanced and lightweight (2.8lbs) for working in restricted areas. With 325 ft-lb maximum torque, the MG325G gives a green light to 10,700 RPM while delivering 1,400 blows per minute. The twin-hammer impact mechanism provides harder hitting blows with fewer moving parts, which extends the tool life. For convenience, the MG325G has a one-handed forward/reverse lever, and the cushioned trigger and grip make it more comfortable to use.

Snap-on® SGDX40BG 4-Piece Combination Mini-Tip Soft Grip Instinct® Screwdriver Set

This set contains two flat tip and two PHILLIPS® tip screwdrivers, all featuring the unique Instinct handle design with six curves and flutes for added turning power. Nickel chrome plating protects the blades against corrosion. Tip identifiers on this green set and on the other SGDX40BG color options help in choosing the right tool for the job.

Snap-on® JCW67G Flat-Oval Adjustable Creeper

Engineered for easy under-vehicle access, the JCW67G has flat-oval tubing to eliminate sharp corners and increase comfort. Maneuvering is easy with a caster profile that reduces rolling resistance. Its hinge mechanism allows for one-hand height adjustment, while a four-position headrest provides maximum comfort. In addition, the creeper is fully-padded with high-density 80 lb. foam and topped with a heavy-duty green vinyl cover.

Snap-on® KALE28X7G Logo Panel

Techs can display their true colors with a Snap-on KALE28X7G Logo Panel light in green. It features an exclusive LED light distribution system within a scratch resistant, coated acrylic panel for the highest clarity. It comes with a stand and magnet for worktop or wall display. This energy-efficient Logo Panel has a 12-ft 110V AC power cord or can run on two AA batteries.

Snap-on® JKAFM3654EGS Cushioned Floor Mat

Designed for prolonged standing on a hard shop floor, the JKAFM3654EGS Floor Mat eases lower back stress and leg and foot discomfort. The mat measures 36" x 54" and gets its green on with a signature Snap-on "S" logo. It is engineered with anti-fatigue cushioning and a sure-footing surface to resist most shop chemicals.

Find out more about these great green Snap-on products, as well as other tools and products, by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools
