New Snap-on torque wrench delivers more muscle in less space

KENOSHA, Wis. (July 24, 2019) – The new Snap-on® ATECH2FR125B 3/8" Drive TechAngle® Flex-Head Torque Wrench provides the same benefits as fellow ATECH series tools, but with more range, strength, and accuracy.

With a 5-125 ft-lb working range, technicians are able to use this torque wrench for a wider array of applications including passenger tires, engines, and suspensions. The tool's strong yoke is engineered for a higher torque load with added steel mass, as well as an extremely tight tolerance ratchet tang-to-yoke fit. Without compromising on the torsional strength, the heavy-duty yoke also provides technicians a smooth indexing movement of the ratchet head up to 15 degrees, and the smaller yoke-to-ratchet gap reduces potential pinch points for increased safety.

The ATECH2FR125B becomes even more precise while in a flexed position (from 0 to 15 degrees) due to the patent pending Snap-on® Multi Axis Gyro Compensation (MAG COMP) that allows the tool to automatically measure its position and compensate for the change of length. The 80-tooth ratchet offers a shorter, 4.5-degree arc making it easy for technicians to work on fasteners in confined spaces and meets or exceeds the ASME® B107.300-2010 (B107.28) standard. The wrench operates on AA batteries and comes with a two-year warranty.

Features of the intuitive ATECH2FR125B include:

- four alert modes (LED, LCD, vibratory, and audible);
- six scales for precise measurements in both metric/SI and imperial units, plus angle;
- 10 presets for easily recalling commonly-used torque specifications;
- cycle counter to help techs keep their tool calibrated;
- torque then angle option for bolts that require specific applications of both measurements;
- battery level indicator;
- low profile buttons;
- power interruption technology;
- Dual progressive LEDs and backlight LCD screen provide greater visibility in dark, cramped work spaces

Find out more about this new tool, as well as other tools and products, by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food

franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and Internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wis. with operations throughout the world. For additional information, visit www.snapon.com.
