New tools from Snap-on make work more efficient and effective

KENOSHA, Wis. (July 8, 2019) – Work in the shop can be more efficient and effective with these new tools from Snap-on.

Snap-on® ECSPA032 LED 300 Lumen Articulating Detail Light – This flexible light produces up to 300 lumens supported by an 18" neck for numerous angle adjustments and maximum visibility in tight workspaces. The over-mold design ensures a comfortable grip during lengthy work, and when a job requires both hands, technicians can use the strong magnets at the base to adhere to any metal surface. The rear clip is designed for looping the neck around and locking it into place. A four-hour run time at its highest setting, 20 hours at its lowest, and a variable brightness switch that includes a memory function guarantee a well-lit work area no matter the job. The ECSPA032 is IP65 resistant to water and dust infiltration and rechargeable via included USB cable.

Blue-Point® ATHUBSCRUB Hub Scrubber with Pad (Blue-Point® a Snap-on® brand) – This Blue-Point® hub scrubber is an invaluable preventative maintenance tool for technicians working on wheel service jobs or any job involving requiring wheel removal. The tool saves times and increases productivity as it quickly removes rust, dirt and corrosion from studs, rotors, hubs, and wheels. Its long-lasting, disposable abrasive pads can be used with any 1/2" drive impact wrench (like the one used to remove the lugs).

Find out more about these and other Snap-on tools and products by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wisconsin, with operations throughout the world.
