In Top Tools New from Snap-on: Snap-on introduces new tools to help get the job done

KENOSHA, Wis. (May 14, 2019) – These new tools from Snap-on will kick-start your productivity for the busy shop months ahead.

BST6 Magnetic Brake Retainer Spring Tool – The Snap-on® BST6 Magnetic Brake Retainer Spring Tool is designed to ease brake work on most domestic and foreign cars, SUVs and trucks. Neodymium magnets – the world’s strongest – inside the tool’s working end free up a technician’s hands to hold a pin on the far side of the braking plate, and a new o-ring addition grips better than the previous older-style serrated surface. A patented Instinct® handle makes the tool easier to grip and more comfortable for use over long shop days.

NOZZLEGRP Snap Grip Hose Nozzle with Shut Off – What looks like a garden nozzle quickly transforms to a pistol grip for watering and cleaning projects of all sizes. The Snap-on® NOZZLEGRP is made with aircraft-grade aluminum, stainless steel, durable plastic and Santoprene™ rubber, and has a handle grip which can be locked in either a pistol or in-line position. A simple twist takes the nozzle’s water flow from a delicate fan-style to a powerful jet pattern for tough shop grime. The intelligent design provides an uninterrupted direct flow path with an on/off lever for quick shut-off without changing the spray pattern.

ECFD0102 900 Lumen Mini Flood Light (Blue-Point® a Snap-on brand) – This compact, pocket-sized flood light has up to six hours of run time, providing long-lasting illumination for those hard-to-reach locations. The strong magnet bracket, M8 hole for tripod support and 180° swivel base ensures visibility on the job. The Snap-on® ECFD0102 is IP68 resistant to water and dust infiltration.

Find out more about these and other Snap-on® tools and products by contacting your Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wisconsin, with operations throughout the world.
