## **Top Tools and Gear Gifts for Dads this Father's Day**

*100 Snap-on gifts under \$100*

**KENOSHA, Wis. (June 7, 2019)** – After everything Dad has done for you over the years, show him how much he's appreciated with these top tools and gear. Snap-on has more than 100 gifts under \$100, perfect for the garage, workshop and beyond. Here are some product highlights:

**1) Snap-on® KAMPT16X8G Magna Panel Tray**

Help Dad save time and stay organized with the Magna Panel Tray from Snap-on. With a 30% stronger magnet than most current magnetic tray models, Dad can carry up to 20 lb of tools from the roll cab to the job site. The dual handles easily slide out for carrying and retract for convenient storage. The tray's rubber feet allow it to be placed on any project surface without scratching or damaging it.

**2) Snap-on® ACYMAGPED E-Z Mount Pedestal Stand**

This device pedestal kit will last Dad for years with its high-quality aluminum and steel build. The stand can be mounted on any smooth, flat work area. With the E-Z Mount Pedestal Stand, a device screen can be tilted to any angle and rotated from landscape to portrait for unlimited, 360° viewing angles.

**3) Snap-on® TORCH300 Butane Gas Torch**

Give Dad maximum flexibility on the job with the singled-handed design and operation of the TORCH300. The reliable twin-spark ignition ensures the torch lights immediately every time it's used. The torch is both durable and comfortable with its rubberized hand grip. Built of stainless steel and ceramic materials, the ultrasonically-welded gas tank and robust burner head provide unmatched durability. The powerful flame length can be adjusted up to 3-1/2" and the self-venting filling valve makes for quick refueling. This hand-held torch can be used upside down and in windy conditions.

**4) Snap-on® ECPNB024-RD LED Penlight with UV Mode**

This slim, pocket-sized penlight produces 200 lumens of bright, clean illumination. Its secondary UV mode provides strong illumination in UV dye inspections. The light features independent switching for quick access to the light mode of choice and is long-lasting with over five hours of run time from standard alkaline batteries. The multiple, built-in magnets adhere to metal surfaces for hands-free visibility and rugged ABS material makes it durable, long-lasting, and perfect for Dad.

**5) Snap-on® JCW80AR Creeper Seat**

With its 16-gauge, 1" steel frame and high-density foam pad, Dad will have a full day of comfort on the job with this creeper seat. The caster profile reduces rolling resistance for a smooth ride and increases maneuverability throughout the shop while multiple, built-in storage drawers keep frequently-used tools and parts close to the job.

Find out more about the these and other gift options for Father's Day by contacting your participating Snap-on franchisee or other representative, visiting [www.snapon.com](http://www.snapon.com) or calling toll-free 877-SNAPON-4 (877-762-7664).

### **About Snap-on Tools**

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education.
