Snap-on Wins Two MOTOR Top 20 Tools Awards

LINCOLNSHIRE, Ill., Oct. 14, 2020 – Snap-on® announces its Diagnostic Thermal Laser won a MOTOR Magazine Top 20 Tools Award, while its Intelligent Diagnostics Livestream Training Sessions was named a Top 20 Tools+ Award winner.

These two products were chosen by MOTOR's technical editors as innovative products that make the jobs of shop owners and technicians easier and helps them professionally service their customers' cars and light trucks.

The Snap-on Diagnostic Thermal Laser takes troubleshooting to a whole new level with laser-guided temperature readings, thermal imaging capabilities and storage for hundreds of images, all in one tool. Featuring both laser and thermal components, the [Diagnostic Thermal Laser](#) combines temperature readings of up to 1,800°F (1,000°F in thermal mode) and thermal imaging capabilities for unrivaled performance on a greater variety of applications.

Snap-on hosted several livestream training sessions over the course of the past year that provided professional service technicians the opportunity to find out how the power of Snap-on's Intelligent Diagnostics could help them be more productive and efficient in the service bay. The training sessions, which were offered free of charge, were suited for technicians that are interested in either learning more or currently own an Intelligent Diagnostics-enabled platform, including [ZEUS®](#), [TRITON-D8®](#) and [APOLLO D8™](#).

To learn more about any of Snap-on's diagnostic solutions, talk to a Snap-on representative or visit <http://diagnostics.snapon.com>.

About Snap-on Diagnostics:

Snap-on Diagnostics is part of Snap-on Incorporated, leading global innovator, manufacturer and marketer of tool, diagnostic and equipment solutions for professional tool users. Products are sold through its franchised dealer van, company-direct sales and distributor channels, as well as over the Internet. Founded in 1920, Snap-on is headquartered in Kenosha, Wisconsin.
