Avoid Gaps in Coverage, Get All New Features with Snap-on Software Upgrade Options

LINCOLNSHIRE, Ill., March 29, 2021 – Professional technicians can keep their Snap-on® software coverage up-to-date, as well as get enhanced features and capabilities to maximize their diagnostic tool investment, when they go with one of Snap-on's [software upgrade options](#).

There is a software upgrade plan to fit every need, guaranteeing the technician's tool will always be updated to diagnose problems quickly, driving them to power on confidently through the toughest repairs.

The Snap-on software upgrade options include:

- **Fast-Track® Intelligent Diagnostics Prepaid Plans** - complete data services, domestic, Asian and European coverage, SureTrack® and online upgrades
- **Software Subscription Program** - continuous software upgrades supply domestic, Asian and optional European coverage, plus SureTrack and online software upgrades. Fast-Track Intelligent Diagnostics-enabled products receive complete data services.
- **Single Software Upgrade** - offers six months of domestic, Asian and optional European coverage, plus SureTrack

The Snap-on software upgrade options are more than just keeping coverage up-to-date, but powering up the tool's performance so that it is even better than the day it was bought.

To learn more about Snap-on diagnostic solutions, talk to a Snap-on representative or visit diagnostics.snapon.com.
