New 'EZ-ADAS Extended' App Now Available

Conway, AR – May 10, 2021 – The new EZ-ADAS™ Extended mobile app from Total Shop Solutions (TSS™) is now available for downloading. Featuring updated procedures for the TSS EZ-ADAS Recalibration System, the EZ-ADAS Extended app also includes expanded vehicle coverage for advanced driver assistance systems (ADAS) and helpful step-by-step instructional videos.

The new EZ-ADAS Extended app is free to download through the Apple® and Google® stores and requires an activation code that is available upon system purchase.

“The EZ-ADAS Extended app replaces the original EZ-ADAS app for all future updates,” said Mariana Montovaneli, director of marketing for Snap-on Equipment. “To ensure that subscribers have the most current content available for their EZ-ADAS system, they should download the new EZ-ADAS Extended app as soon as possible.”

The TSS EZ-ADAS Recalibration System is the only ADAS equipment in the marketplace that features an innovative mobile app to help technicians perform recalibration services quickly and easily. The EZ-ADAS system is available for purchase through John Bean®, Hofmann® and Car-O-Liner® brands. The EZ-ADAS Extended app lets technicians rapidly search for the vehicle they are servicing, without having to reach out to any other source of information.

[EZ-ADAS](https://www.ezadashub.com/) is an intuitive, laser-guided target placement that ensures accurate, error-free positioning and features easy vehicle selection with a VIN barcode reader that can be utilized via the smartphone camera. Customers can find out more about the TSS EZ-ADAS Recalibration System and new EZ-ADAS Extended app by calling 877-482-4866 or visiting <https://www.ezadashub.com/>.
