Snap-on Enhances ShopStream Web Page

Making it Easier Than Ever to Download and Install Software Upgrades

LINCOLNSHIRE, Ill., Oct. 25, 2021 – Snap-on® recently made it easier to get software downloads offered from its free ShopStream™ software delivery products.

ShopStream software delivery methods differ depending on the product, but each is straight-forward and easy to use, giving customers the exclusive ability to update their scan tools and component test systems with the latest software upgrades as soon as they are released.

How to use ShopStream software delivery for Snap-on's entire line of diagnostics systems can be found on the newly designed ShopStream [web page](#).

Customers with a subscription or prepaid plan can download and install software upgrades and service releases anytime, at their convenience, during work lulls or off-times, eliminating any possible tool downtime.

For more information about Snap-on, visit www.snapon.com/diagnostics or talk to a Snap-on franchisee or other sales representative.

About Snap-on:

Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, diagnostics and repair information and systems solutions for professional users performing critical tasks. Snap-on diagnostic products are sold through the company's franchisee, company-direct distributor and Internet channels. Founded in 1920, Snap-on is headquartered in Kenosha, Wisconsin.
