## Snap-on Increases European Coverage in Latest Software Upgrade

**LINCOLNSHIRE, IL, July 27, 2021** – Understanding European cars can be complicated, so technicians need their diagnostic tools to be current, delivering clear and accurate information. With the newest European coverage from Snap-on®, technicians get what they need to embrace the full potential of their diagnostic platforms.

The European coverage available in [the latest upgrade](#) includes new and significantly enhanced general repair, collision and safety systems coverage for Alfa Romeo®, Audi®, BMW®, FIAT®, Jaguar®, Land Rover®, Mercedes-Benz®, MINI®, Porsche®, Volkswagen® and Volvo®. Plus, Fast-Track® [Intelligent Diagnostics](#)-enabled platforms such as ZEUS™, APOLLO-D9™ and TRITON-D10™ see even more European coverage added every month.

European coverage highlights include: BMW vehicle sleep mode and automated EVAP leak test added for all applicable models; active cruise control added for the 2002-2009 BMW 7 Series including codes, data and tests; additional airbag special function coverage for 2008 and newer Audi and Volkswagen; tests added to the air conditioning and signal acquisition modules for 2013 and newer Mercedes-Benz CLA Class; and Ethernet compatibility for the Land Rover 2020 Defender.

Refer to the website at [www.snapon.com/Diagnostics/Euro](http://www.snapon.com/Diagnostics/Euro) for a complete list of the coverage and features that have been added over the past 12 months or check out specific and in-depth coverage information for makes and models by year at [www.snapon.com/vcguide](http://www.snapon.com/vcguide).
