## Join Snap-on Every Tuesday for Free Diagnostic Training Sessions

**LINCOLNSHIRE, Ill., Jan. 27, 2022** – Professional technicians of all levels are invited to join Snap-on Diagnostics National Trainer Jason Gabrenas for live [online training sessions](#) every Tuesday that cover a variety of industry topics on a rotating schedule.

Upcoming sessions include:

- Feb. 1: VVT Operation and Testing
  - variable valve timing system components, testing and operation
- Feb. 8: Hybrid Vehicle Components and Testing
  - different hybrid vehicle systems in use along with diagnostic tips and tricks
- Feb. 15: Body Electrical Systems
  - how systems have evolved and testing tips and tricks to save time diagnosing these systems
- Feb. 22: Component Test and Correlation
  - the power of seeing relationships between multiple signals using a multi-channel scope
- March 1: Automatic Transmission Controls and Testing
  - different electronic control methods including component testing, adaptations and scanner functions
- March 8: VVT Operation and Testing
  - variable valve timing system components, testing and operation
- March 15: Hybrid Vehicle Components and Testing
  - different hybrid vehicle systems in use along with diagnostic tips and tricks

There are two time slots for each day of training. Session one takes place at 6 p.m. ET/5 p.m. CT/3p.m. PT and session two runs 9 p.m. ET/8 p.m. CT/6p.m. PT. Sessions are free-of-charge and provide approximately 30 minutes of material and 15 minutes for questions and answers.
