Snap-on Creepers Take the Scary Part Out of Time-Consuming Jobs

KENOSHA, Wis. (October 3, 2022) – Bewitching season may be upon us, but creepers by Snap-on keep techs efficiently rolling through their day and take the scary part out of reaching tight spaces.

Snap-on® JCW670 Flat-Oval Adjustable Creeper, Orange – Available in seasonal orange, this durable 40" L x 17" W x 4" H seat includes a hinge mechanism that allows one-hand height adjustment to make positioning the headrest easier and more comfortable. The frame's flat-oval tubing eliminates uncomfortable corners, and the creeper's caster profile reduces resistance, making it easy to maneuver in tight spaces.

Snap-on® JCWEXTO Under The Dash Creeper, Orange – With a 15-30" range for tool-free height adjustment and a 300-lb. capacity, this adjustable bench-style creeper eases under-the-dash jobs for any vehicle. A removable height extension bar makes this a go-to for techs working on a range of vehicles from sports cars to full-size trucks. The durable, powder-coated metal frame has additional bracing for improved stability when working on taller vehicles.

Snap-on® JCW80AO Creeper Seat - This Snap-on Creeper Seat sets the standard in shop maneuverability, with a caster profile designed to reduce resistance and roll through any job. There's even a storage drawer and parts tray tucked under the strong plywood core seat that's padded with high-density foam and surrounded by a durable, heavy duty vinyl cover. The 16-gauge 1" steel frame will take on the rigors of any shop, no matter the season.

Find out more about these and other Snap-on tools and products by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).
