Celebrate Grads and Dads with Snap-on Favorites

KENOSHA, Wis. (May 15, 2023) – To celebrate "hands-on" grads and dads, Snap-on has released its 2023 gift guide featuring a curated collection of favorites for work in the garage or on-the-go. Highlighted items currently featured at special pricing include:

- Redefining the benchmark for a versatile tool that addresses one of the most frequent workshop tasks, the **Snap-on® TPGDL2000 Digital Tire Inflator** boasts a 0-200 PSI range with +/- 1 percent full-scale precision. Its foolproof zero-out function accounts for temperature and atmospheric pressure variations, guaranteeing accurate readings. As tire pressure checks are integral to standard vehicle inspections, this robust tool is built to endure daily wear and tear, as well as resist contaminants like water, oil, or tire sealant. The TPGDL2000 offers a user-customizable pressure scale (PSI, bar, kgf/cm², or kPa), field-replaceable components if damaged or worn, easily accessible AAA batteries, and an auto-off feature to extend battery life.

- With an ultra-compact breakthrough design, the **Snap-on® ECFDE402 4,000 Lumen Work Light** delivers a powerful output of up to 4,000 lumens for a two-hour runtime and a sustained 400 lumens for up to 15 hours in its lowest mode. A built-in fast-charge system ensures the device is fully charged in under three hours, while the USB output provides the convenience of being able to charge a third device. With a strong magnetic base that rotates 180 degrees, the light easily attaches to ferrous surfaces and provides adjustable lighting angles, allowing for optimum hands-free operation. An IP65 rating ensures the device is resistant to dust and water.

- Whether used directly on the floor or on a creeper, **Snap-on® MAT38PK 5-Pack Kneeling Mats** provide comfort and support during tasks that require extra cushioning. Made of durable, tear-resistant multi-layered foam, these mats withstand most shop chemicals, ensuring long-lasting use and measure 15-3/4" W x 38-1/2" L x 1-1/8" D, providing ample coverage for various applications.

- Keeping tools and small parts organized, the **Snap-on® KAMPT12X6R Magna Panel Tray** measures 12" x 6" and features a practical design, ensuring durability and reliability in workshops. The powerful built-in magnets are 30 percent stronger than those in the current magnetic tray model and securely hold up to 10 lbs, keeping components in place and preventing them from rolling or sliding away during a job. With a retractable handle for carrying and storage, protective rubber feet for delicate surfaces, and a powder-coated base with a galvanized steel top, this tray combines functionality and style for workspace organization.

Find out more about these small but mighty products and other Snap-on tools by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com, or calling toll-free 877-SNAPON-4 (877-762-7664).
