Car-O-Liner Frame Machines Help Collision Repairers Restore Structure, Rebuild Confidence

CONWAY, Ark. – Nov. 17, 2026 – The Car-O-Liner® premium auto body frame machine portfolio is designed and manufactured to help collision repair professionals measure, pull and align vehicles with consistent accuracy. Whether a vehicle has suffered a minor impact or significant structural damage, every repair starts with a solid foundation and the *Car-O-Liner* frame machines are engineered to provide that foundation.

“Shops today face a wider mix of vehicles within the same workspace, and they need equipment that keeps up,” said Doug Bortz, manager, collision sales, North America, Car-O-Liner. “Our frame machines are engineered to give repairers the accuracy and control they need, whatever comes through the door. That is why collision repair professionals around the world trust Car-O-Liner.”

Designed with state-of-the-art technology and robust materials, the *Car-O-Liner* frame machines combine unparalleled precision with user-friendly functionality. Technicians get controlled pulling power, flexible repair capabilities and consistent, manufacturer-aligned results, helping workshops return vehicles to the road safely.

The *Car-O-Liner* frame machine lineup includes:

- **Speed™ 3T:** One of the most effective lightweight benches on the market. It supports vehicles up to three tons and handles light and medium cosmetic repairs with quick draw aligner setup and five-ton multi-angle pulling capacity.

- **BenchRack™:** Combines drive-on convenience with a hydraulic lift and removable ramps. Available in four lengths, it suits unibody and full-frame vehicles, from small cars to light trucks, vans and SUVs, and covers everything from light cosmetic work to full-frame repairs.

- **BenchRack™ Versa:** An in-ground straightening system designed to improve access, ergonomics and workflow efficiency. Selectable bench lengths and integrated measuring support help maintain repair accuracy across a broad mix of vehicle types.

- **Quick42™:** A multi-functional alignment bench system offering a complete repair solution. It gives technicians a streamlined process to diagnose and repair vehicles, helping body shops expand repair capabilities, increase efficiency and improve customer satisfaction.
