Challenger Lifts Adapter Cart Wins People's Choice Award

LOUISVILLE, Ky. – Oct. 8, 2026 – The Challenger Lifts® Adapter Cart has won a People's Choice Award in the tool organization category of the 2026 Professional Tool & Equipment News (PTEN) Innovation Awards program.

“Receiving a People's Choice Award for our new Adapter Cart is a tremendous honor, and we sincerely appreciate all the service professionals who took the time to vote for it,” said Trevor Coleman, national sales manager for Challenger Lifts. “An award selected by the technicians who use our equipment carries special significance because they understand the demands of the shop environment. Built to keep adapters, footpads and spacers exactly where technicians need them, the Adapter Cart helps shops reduce setup time, minimize downtime and maintain a cleaner, more efficient working environment.”

The *Challenger Lifts* [Adapter Cart](#) offers centralized storage for essential lifting accessories, keeping equipment at the point of use rather than scattered throughout the shop. This mobility translates directly into faster setup times and fewer interruptions between jobs, helping maintain a more consistent and efficient workflow throughout the bay.

At the core of the system is a durable, mobile cart designed to store and transport lift adapters and accessories throughout the shop. It comes equipped with a full range of components designed to support a variety of lifting requirements.

For the 12th year, readers of PTEN were invited to voice their opinions and vote on their top products nominated in the Innovation Awards program to be recognized as 2026 PTEN People's Choice Award winners.
