New Snap-on Online Scheduler Makes It Easier to Book J2534 Programming Appointments

LINCOLNSHIRE, Ill., May 19, 2026 – Snap-on® has added an online scheduler at <http://PTAprogramming.com> where customers who own a Pass Thru Assistant or the new Pass Thru Assistant+ can easily book remote assisted programming services for when it works best for their automotive repair shops.

“With the new scheduler, technicians can save valuable time by making their J2534 programming appointments directly online so there’s no need to wait for a return phone call,” said Helen Cox, marketing and client services director, Snap-on Diagnostics. “With just a few clicks, they can make arrangements to get vehicles programmed without delay.”

The [Pass Thru Assistant](#) is a turn-key remote solution to help technicians replace the existing software/firmware in electronic control units (ECUs) with updated OEM software. Successfully program thousands of domestic, Asian and European vehicles with the same easy-to-use process.

The [Pass Thru Assistant+](#) is a new J2534 programming device that combines the turn-key remote support offered by the Pass Thru Assistant with the do-it-yourself functionality of the Pass Thru Pro, giving auto repair and collision technicians the flexibility to program vehicles to match their needs.

Customers can call 1-833-4SNAPON for assistance. For even faster support, they can use the new live chat feature available at <http://PTAprogramming.com>.

About Snap-on

Snap-on Incorporated is a leading global innovator, manufacturer, and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks including those working in vehicle repair, aerospace, the military, natural resources, and manufacturing. From its founding in 1920, Snap-on has been recognized as the mark of the serious and the outward sign of the pride and dignity working men and women take in their professions. Products and services are sold through the company’s network of widely recognized franchisee vans, as well as through direct and distributor channels, under a variety of notable brands. The company also provides financing programs to facilitate the sales of its products and to support its franchise business. Snap-on, an S&P 500 company, generated sales of \$4.7 billion in 2025, and is headquartered in Kenosha, Wisconsin.
