Snap-on TRITON Scan Tool Wins MOTOR Top 20 Award

LINCOLNSHIRE, Ill., Sept. 2, 2026 – Snap-on® announces its TRITON™ scan tool has won a 2026 MOTOR Top 20 Award, recognizing it as one of the automotive industry's most innovative and impactful solutions.

"We would like to thank all of the automotive industry professionals who voted for the TRITON scan tool in the MOTOR Top 20 Award competition as one the year's most valuable new contributions," said Helen Cox, marketing and client services director, Snap-on Diagnostics. "Designed to streamline workflow, enhance efficiency and increase productivity on every repair, TRITON ensures technicians have what they need to get through the job at hand, taking them from start to fixed."

[TRITON](#) features wireless technology for a fast, reliable connection, along with Fast-Track® Guided Component Tests and code-based troubleshooting, a patented Snap-on exclusive that filters out complexity and presents one focused workflow. Based on an ever-expanding and validated repository of billions of repair records and hundreds of billions of diagnostic sessions, Snap-on solutions are trusted and always growing, keeping technicians on the path to the right repair.

TRITON also includes comprehensive coverage with the breadth and depth of manufacturer-level capabilities for the codes, data and tests that technicians need. A complete vehicle scan function quickly identifies all codes for every system. Consistent navigation and terminology across vehicle makes, advanced data graphing and quick access to the most common specs and capacities sets Snap-on apart from other scan tools.

MOTOR Top 20 entries represent some of the most innovative and exciting new developments from across the automotive industry, and winners were selected by industry professionals using an online voting system.
