

THE ALL-NEW
DIAGNOSTIC SOLUTION
FOR MOTORCYCLES!

Snap-on®

FULL THROTTLE DIAGNOSTICS

Introducing the all-new diagnostic scan tool for motorcycles.

We've taken the Snap-on quality and expertise you already know and trust and created a new diagnostic scan tool engineered to help you take on diagnostic jobs confidently and effortlessly.

We know you pride yourself on doing a great job and that you're always ready for challenges that come your way. So stay sharp and have the right tool by your side so you can continue delivering great service.

All in **one tool!**

Designed for the motorcycle industry, Snap-on's P1000™ is a **complete motorcycle diagnostic tool** with features that will give you the edge. Take on more jobs with access to comprehensive OEM-specific bike coverage for nine Domestic, Asian, and European makes as far back as 2000.

- Makes include: Harley-Davidson®, BMW®, Victory®, Indian®, Ducati®, Yamaha®, Honda®, Kawasaki® and Suzuki®
- Provides great comprehensive diagnostics including fault codes to identify the problem as well as live data graphing to pinpoint the issue
- Functional tests allow you to accelerate maintenance tasks like brake bleeding, service light reset, compression tests and fuel tank drain
- Relearns and adaptations enable you to get component problems fixed and get the bike back on the road
- **PLUS!** Automotive coverage for 49 Domestic, Asian and European vehicles as far back as 1980

If you're going to do something,
do it right and do it well.

We make products that work for you, and we're sure that once you've tried it, you'll be charging through the diagnostic work.

The P1000™ has a robust tablet-inspired design with a large full-color 5.6-inch LCD daylight-readable touchscreen; every bit of it is designed for life in the shop. You've also got a whole lot of horsepower with the Steady-Charge system which charges the lithium-ion battery directly from the bike's diagnostic port.

The straightforward navigation and icon menu interface provides clear direction, so even if you're new to diagnostics ***you will be turning bikes around at lightning speed.****

*Some bikes require the use of included adapter cables.

Got the **need for speed?**

Everything about the P1000™ is fast, so it can keep up with you and your shop.

- Auto ID reads the VIN and saves you time locating the vehicle on the tool
- The embedded SMX® Operating System ensures quick diagnosis as well as reliable operations
- Get fast selection with the ability to save and recall previous bikes, another handy and time-saving feature
- The automatic power-on function triggers once connected to the bike and the ignition key turned on

It all adds up to a lot of time saved!

PASSION, PRIDE AND PERFORMANCE

WE'VE GOT THIS!

Speed

- Super fast boot-up – ready to work in five seconds
- Save and recall bike ID and diagnostic results
- Automatic power-on when connected to the bike and the ignition key turned on
- Auto ID reads the VIN so you don't have to*

*Some bikes require the use of included adapter cables.

Performance
