INTELLIGENT DIAGNOSTICS

INTELLIGENT DIAGNOSTICS

APOLLO D8™

- A good practice would be to do a pre scan before any work is done, to make the customer aware of any and all issues.
- Then a post scan after work is complete to confirm the repairs were completed properly.

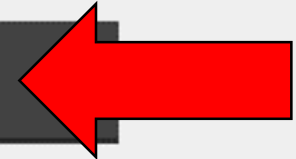

Speed, Certainty and Profitability

Select System:

- Code Scan
- Clear All Codes Read by Code Scan
- Engine
- Transmission
- Antilock Brakes
- Airbag

SHOPSTREAM CONNECT™

Complimentary Tool Management Software

- Connect your PC to your diagnostic platform with ShopStream connect to manage daily diagnosis and repair files plus receive online diagnostic software service release updates direct from the internet and more
- Supports MODIS™, SOLUS™, ETHOS®, VANTAGE®, MICROSCAN® Families

ShopStream Connect is a Windows®-based Snap-on software application that helps keep you and your diagnostic tool productive and profitable every day.

- A practical in-shop software tool to transfer, save, manage, review, annotate, e-mail and print files that were saved or recorded on your Snap-on diagnostic platform
- Diagnostic platform support with timely service release downloads to keep your tool performing at the top of its game
- Convenient Software Subscription Program support with automatic upgrade notifications and anytime download/installation capabilities

ShopStream Connect simply installs onto a PC or laptop (do not install ShopStream Connect on a Snap-on diagnostic tool).

Using Software Bundle 7.2 or higher, record scanner movies, save to your PC, and open the saved files with ShopStream Connect. Customize your view of this vital diagnostic information. Display up to 16 graphs onscreen at once and easily drag-and-drop to customize the display order. With the Data Manager and new Scanner Codes Viewer you can now view and print Trouble Codes saved on MODIS Ultra, SOLUS Edge, and SOLUS Ultra platforms. You can even create custom printouts of scan data to share with vehicle owners, or save it with your vehicle records.

If you have a platform that includes a scope then you can view lab and ignition scope recordings, auto play, step through frames and pages, zoom and use cursors to help analyze waveforms. Customize the display with scales and a grid. Reposition each channel individually, and invert colors for printing.
