TROUBLESHOOTING.**

APOLLO+TM

FAST. SMART. FOCUSED.

More vehicles on the road, advancing complexity, plus an increasing average vehicle age make productivity on every job more important – and more challenging – than ever. **APOLLO+** is your diagnostic assistant, ready with guidance and capabilities for every repair – from the routine to the mysterious. You can't afford to be slowed down looking for the best place to start.

APOLLO+ features Fast-Track troubleshooting, a patented Snap-on exclusive that filters out complexity and presents one focused workflow. Based on an ever-expanding and validated repository of billions of repair records and hundreds of billions of diagnostic sessions, our solutions are trusted and always expanding, keeping you on the path to the right repair.

APOLLO+ is by your side for every vehicle you see in your bay, ensuring you have everything you need to get through the job.

CONFIDENCE FROM START TO FINISH.

Snap-on is the only US-based company designing, engineering and supporting professional diagnostic products from the ground up. More technicians depend on Snap-on than any other brand.

As the diagnostic leader for more than three decades, no company is more dedicated to supporting you and your success. For a tool you should use with every vehicle in your bay, why would you think about anything else!

DIAGNOSTIC SOFTWARE

APOLLO+ provides more coverage than any other diagnostic tool in the industry with the breadth and depth of manufacturer-level capabilities for codes, data, and tests you need. Consistent navigation and terminology across makes, advanced data graphing, and quick access to the most common specs and capacities set Snap-on apart as the best-selling professional diagnostic system. You also get a complete vehicle scan function to quickly identify all codes for every system.

CUSTOM HARDWARE

APOLLO+ is the fastest in the industry, built to withstand the rigors of the shop environment, featuring a 10" touchscreen display in a sleek, sophisticated design.

This is so much more than a generic tablet we put our logo on. Snap-on diagnostic products have a reputation for their longevity.

EXPERIENCE-BASED SOFTWARE

APOLLO+ features our exclusive Fast-Track troubleshooting workflow. The Top Repairs graph and verified Real Fixes show you how other techs have tackled the problem you're facing. These verified fixes are harvested from billions of successful repair records. Our patented Smart Data automatically selects only the PIDs related to the code you are working on, and flags which ones are out of range at idle. Instead of hundreds of possible readings, we only show you the ones that matter. In addition, pre-filtered functional tests and technical service bulletins (TSBs) help you confirm you're on the right path to repair.

CUSTOMER SUPPORT

APOLLO+ comes standard with the industry's best UK-based product support, 24/7 access to online training, free live seminars and new product training with a diagnostic specialist. Flexible financing to suit your budget and assistance from your dedicated Snap-on Franchisee.

**ALL OF THESE THINGS COMBINED ENSURE YOU GET
THE MAXIMUM VALUE OUT OF YOUR INVESTMENT.**

THE FAST-TRACK® TO FIXED.

Fast-Track troubleshooting saves time with every code by providing you with filtered information specific to the vehicle you're working on.

INTUITIVE WORKFLOW

The Fast-Track Intelligent Diagnostics landing page gives you a comprehensive view of a logical diagnostic workflow, guiding you through the repair you're working on and avoiding unnecessary steps along the way — all from a single screen.

THE INDUSTRY'S MOST COMPREHENSIVE SOURCE OF
EXPERT KNOWLEDGE FOR **PROFESSIONAL TECHNICIANS.**

TOP REPAIRS GRAPH

Provides a graph by mileage of the parts and procedures used to fix the selected code or symptom, letting you see what has worked for others in that specific situation.

TECHNICAL BULLETINS

Gives you up-to-date, one-click access to relevant vehicle and code-specific OEM recalls, campaigns and bulletins.

SMART DATA

Delivers a code-based data list, highlighting PIDs that are out of expected range — with all the data recorded, all of the time.

RELIABLE

With proven results collected from billions of repair records and hundreds of billions of diagnostic sessions, our 'big data' puts vehicle-specific information right in front of you — eliminating the need to leave the bay and scour the web or forums in search of answers.

TRUSTED

Snap-on engineers verify all the information provided — so you can always be confident in the quality of data you're seeing.

CUTTING-EDGE

All information is continually updated and automatically synced to your tool via Wi-Fi®.

FUNCTIONAL TESTS AND RESETS

Supplies a pre-filtered list of functional tests and resets, letting you quickly test, verify and reset component operation.

REAL FIXES

Shows you what's worked for other technicians, based on expert knowledge from professionals who have seen — and solved — the same vehicle issues you're facing.

FAST. SMART. FOCUSED.

Snap-on exclusive advantages that give you a reason to connect to every vehicle in your bay.

COMPLETE CODE SCAN

Pre- and post-scan functions quickly identify all codes for every system. Reports are automatically saved and can be easily shared with customers.

SERVICE RESETS AND RELEARNS

Snap-on organises tests and relearns by common repair procedure across all makes. Plus, a related repairs graph highlights other fixes that should be considered. OEM technical bulletins are also provided.

SNAP-ON CLOUD

Connect to your device to @altusdrive.com to automatically upload vehicle system reports to the Snap-on Cloud.

VEHICLE SYSTEM REPORT

Share your vehicle system reports with colleagues and customers via e-mail.

COMPREHENSIVE PORT.

GUIDANCE

Even the most experienced technician can run into a few questions every now and then. Your Snap-on sales representative is a one-on-one customer service advisor who can help you navigate any challenges that come your way.

ON TARGET FROM START TO FIXED.

HARDWARE

- Sleek, sophisticated design developed specifically for the shop environment
- 10" capacitive color touchscreen display for improved readability from any angle — and superior visibility indoors or out
- Four-way thumb pad for quick navigation
- Fast boot up and one-touch code scan and clear, letting you move quickly from start to fixed.
- 5 GHz wireless compatibility

DIAGNOSTIC SOFTWARE

- Comprehensive and detailed functional tests
- OEM-specific scanner coverage for over 40 and more than 100 vehicle systems as well as access to US and Australian coverage
- Instant vehicle identification for most 2008 and newer vehicles
- OEM-level data and advanced graphing capabilities
- Up to eight live data parameters displayed on-screen at a time
- Records all data, all the time for easy switching to view any alternate PIDs
- One-click access to relevant vehicle- and code-specific technical service bulletins (TSBs)

EXPERIENCE-BASED INFORMATION

- Patented Fast-Track troubleshooting workflow and filtered information for bringing focus to the specific vehicle and code you're working on
- Access to a patented repository for verified parts replacement records and Real Fixes harvested from billions of successful repairs
- Access to common procedures, specs and service interval resets
- Patented Smart Data, a code-based data list that flags parameters out of range
