CUSTOM SPECIALTY VEHICLES

WALL DISPLAYS

LDV's merchandising displays are purpose-built to display Snap-on's current product offerings. They mount via E-track and can be easily moved to change-up your interior.

LIFT GATE

The 2,000lb. capacity lift gate has an auto open/close feature. Raise and lower the lift gate with the push of a button. Integral cart stops secure any cargo in place to help safe loading and unloading.

BATTERIES & AC PANEL

Separate from the chassis electrical system, the auxillary electrical system is designed to provide ample power to run your business.

HVAC

Cool in the summer and warm in the winter! Engine-driven air conditioning and a diesel furnace provide ample heating and cooling. Power roof vent and 12-volt fans provide options for additional comfort.
