**“With TruckSeries  
I can quickly find what I’m looking for  
and get the truck back on the road.”**

## **REPAIR TRUCKS FASTER**

Complete service information for Class 4-8 trucks is just a few clicks away. You’re really that close to all the information you need to diagnose, estimate and repair commercial trucks more efficiently and profitably.

TruckSeries online software provides commercial truck service professionals with the fastest, most complete and accurate solutions for every stage of the repair process. We’ve packaged all our industry-leading estimating, diagnostic trouble code and repair information for medium and heavy trucks into a single application — so the information you need is always just a few mouse clicks away.

If you’ve ever had to make an educated guess when estimating or repairing a commercial truck, you probably know the frustration of going down the wrong path on a repair. In the fast-paced trucking industry, every minute counts. The easy-to-use software guides you all the way from the correct diagnosis to an accurate labor estimate and completed repair, so you can work more efficiently and eliminate guesswork.

**See how you can work more efficiently with industry-leading diagnostic, repair information and labor estimating tools, all accessible from a single login.**

# Why Choose ShopKey TruckSeries?

It's the only comprehensive repair information software suite of its kind available for Class 4-8 trucks. TruckSeries gives you a one-stop, single login, all-makes data resource with enhanced wiring diagrams, digital pictures, DTC-to-diagnostics, and so much more — all delivered in seconds.

**Repair Information** – With our exclusive, best-in-class repair information for Class 4-8 trucks, you'll find the most complete data for all makes in one place. This helps you speed up repairs, increase the number of repairs your techs can do, and keep trucks rolling through your bays.

**1Search Plus** – Get search results instantly in a unique user-friendly layout that resembles the apps on a smartphone. The card-based format presents targeted results in specific categories, leading you directly to the information you need.

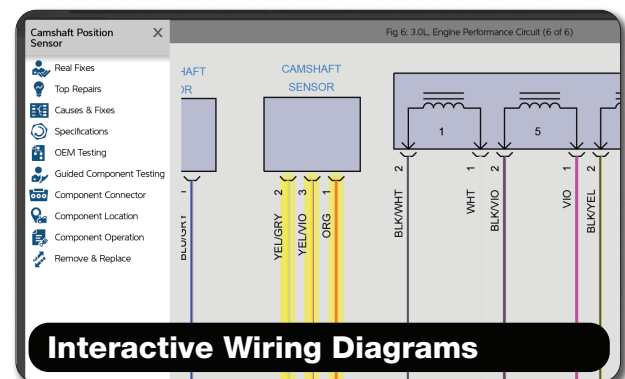

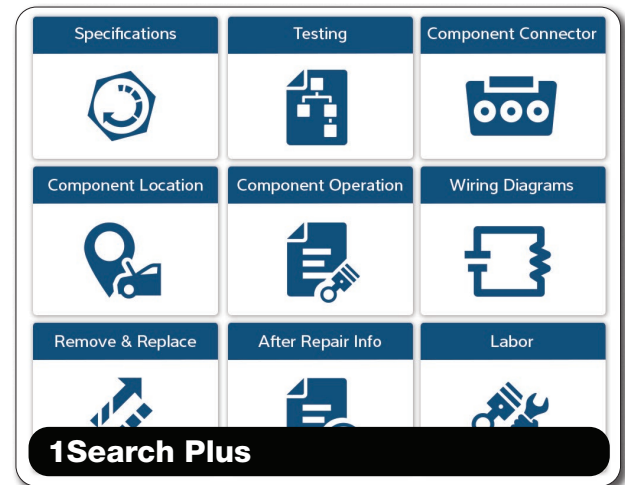

**ADAS Driver Assist Quick Link** – TruckSeries makes it quick and easy to diagnose, repair and calibrate vehicles equipped with Advanced Driver Assistance Systems (ADAS). Simply select a vehicle and click the Driver Assist/ADAS Quick Link button to get a table of consolidated vehicle-specific information.

**Interactive Wiring Diagrams** – The powerful wiring diagrams in TruckSeries are built with intelligent navigation that takes you directly to the specific diagram for the component you searched for — with traces automatically highlighted! It's faster and easier than ever to find the exact wiring diagram and related data needed for an efficient and accurate electrical diagnosis.

**Component Photos** – Take the guesswork out of your next job with full-color, high resolution pictures of components, connector views and locations. These photos give you real-world examples of what's inside the trucks you're repairing.

## **NEW! TMC Recommended Practices (RPs)** –

TruckSeries now offers convenient online access to RPs, developed by the American Trucking Associations' Technology & Maintenance Council (TMC). For five decades, these valuable RPs have provided standardized procedures and best practices for truck maintenance and repair. Now, with just a click of a button, users can effortlessly retrieve pertinent information from a vast repository comprising over 500 technical documents, covering areas such as electrical systems, tire and wheel maintenance, engines, chassis and brake systems.

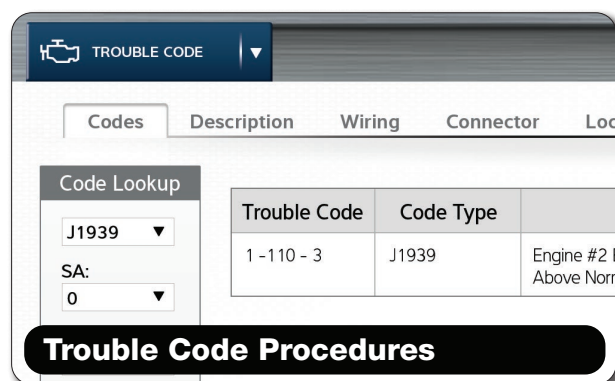

## Diagnostic Trouble Code (DTC) Procedures

Go from trouble code to diagnostics in 30 seconds or less, and dig right into the repair with the Trouble Code Procedures module in TruckSeries. Log in, choose your vehicle or enter a VIN, select your DTC and you'll get instant access to our comprehensive diagnostic trouble code procedure information, including:

- ▶ Descriptions and specifications
- ▶ Full-color, interactive wiring diagrams
- ▶ Connector views with pin-outs
- ▶ High resolution component location photos
- ▶ Engine, transmission and brake coverage
- ▶ Testing steps & procedures
- ▶ Removal & Installation

The **Trouble Code Procedures** module is included with TruckSeries, and is also available as a stand-alone option.

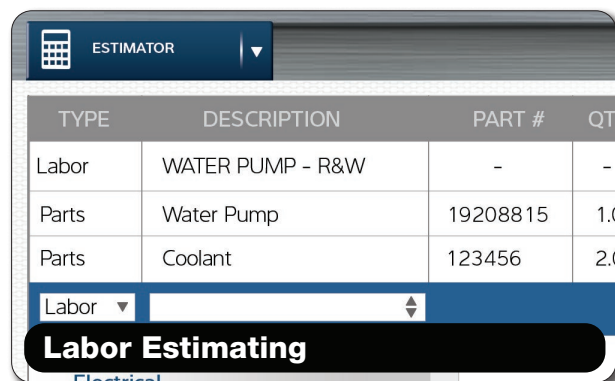

## Labor Estimating

Take the guesswork out of writing estimates with the industry's first comprehensive labor time estimating software that provides reliable, standardized mechanical labor times for all makes and models of Class 4-8 trucks. And as you write a quote, TruckSeries displays the appropriate Vehicle Maintenance Reporting Standards (VMRS) codes. You'll find everything you need in a single application to accurately estimate a job, so you can write estimates faster and easier than ever before. Key features include:

- ▶ Standardized labor times
- ▶ Labor estimating jobs map seamlessly to VMRS
- ▶ Coverage from 1990 forward
- ▶ Customizable labor rates by different customer types or service operations
- ▶ Automatic updates for labor time data
- ▶ Streamlined navigation to reduce clicks and speed lookups and estimates

**Labor Estimating** is included with TruckSeries, and is also available as a stand-alone option.

**The ShopKey Advantage:** ShopKey has been a leader in automotive mechanical labor estimating times for over half a century and brings this expertise to the Class 4-8 industry. Our comprehensive database of labor times has been developed using a painstaking methodology perfected over time.
